Preface

The 1983 edition of *Index to Federal Programs and Services* includes information on 109 federal departments, agencies and Crown corporations. Certain central agencies, such as the Privy Council Office and the Ministry of State for Social Development are not included here since their activities affect the general public only through other departments. Some other organizations that are included do not necessarily provide a direct service to the public, but are involved in activities which impinge on the public in some way.

Part I contains a listing of toll-free telephone services throughout the federal government; a subject index; and program descriptions organized by department, each with a number and an abbreviation of the organization's name. (These abbreviations are for coding purposes only, and are not necessarily the official acronym of the department.)

Part II consists of addresses and phone numbers (where available) of federal regional, district and branch offices serving the public throughout Canada, and a list of nation-wide authorized bookstore agents.

The section on preliminary page x provides a detailed explanation on how to use the *Index*.

This book could not have been produced without the co-operation and unflagging assistance of the department, agency and corporation co-ordinators who provided the original material, and who worked so diligently to ensure accuracy of content and to meet difficult deadlines. We would like to express our appreciation and thanks for their support.

Final update was 26 November 1982.

What is in the Index

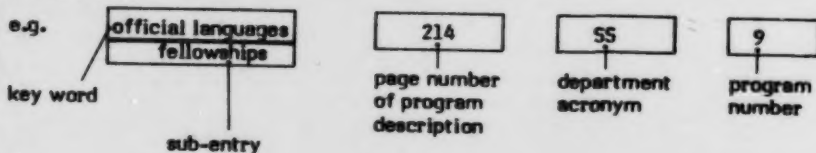

Descriptions of programs and services provided by 109 federal departments, agencies and Crown corporations are grouped by department. Each departmental section begins with the head office address, general inquiry number and, if applicable, a list of cities where the regional offices of that organization are found.

The individual program descriptions include an inquiry number, where possible, a cross reference to the regional and district offices in Part II and, if there is toll-free service for the program, a cross-reference to the toll-free telephone service section, page 2.

A table of contents listing the departments alphabetically enables you to find the programs of a specific organization:

e.g. page 213 Science Council of Canada

A *subject index* provides a direct route to a specific program description by topic, eliminating the need to know which program is administered by which department. The key word gives the page number of the program description, the department acronym and the program number:

A *toll-free telephone service* section (page 2) lists all toll-free services available throughout the country for specific programs such as CHIP, or more general information on departments, such as Consumer and Corporate Affairs consumer product information.

Telephone referral services throughout Canada are listed by province, page 1.

Part II provides the addresses and telephone numbers of federal regional, district and field offices throughout the country. These are sorted first by province, then city or town. If there is no office in your town, consult the toll-free telephone service listings for the program or department.

A *city index to offices* (page 244) lists by departments, those cities and towns in which each department's regional, district, field and head offices are found.

Toll-free Telephone Service

Toll-free numbers apply to those programs for which information is frequently requested by the public. Please note that not all departments have toll-free numbers, and that some departments listed below may not have a toll-free number that applies in your area. For Zenith numbers, dial the operator and ask for the desired Zenith number indicated below. In the case of collect calls, dial the operator and request a collect call for the desired number. The other numbers may be dialed direct.

Agriculture Canada (AGC)

Head Office
Sir John Carling Building
Central Experimental Farm
930 Carling Avenue
Ottawa, Ontario
K1A 0C5

Regional, District and Branch Offices: throughout Canada.
Experimental Farms and Research Stations: throughout Canada.

Information: Ottawa/Hull (613) 995-8963; regional, district and branch offices, experimental farms and research stations, see Part II under nearest town; for recorded information regarding market prices for livestock, see toll-free numbers listing on page 2; in Alberta only, for general information, see toll-free numbers listing on page 2.

The Department is responsible for federal policies, programs and regulations relating to agriculture and food. It is involved in such activities as grading and inspection, seed certification, the regulation of pesticides and fertilizers, scientific research, international agricultural liaison, and the dissemination of information. Diagnostic and control programs for animal diseases, market development programs, and market forecasts and reports also come under the Department's jurisdiction.

AGC 1

Research grants: university grants are available to staff members of Canadian universities for specific agricultural research. Research Program Service. Inquiries: Ottawa/Hull (613) 995-9071 or any regional office, see Part II.

AGC 2

Internal research programs: the Research Branch programs are designed to determine optimum conditions of soil and climate for specific crop varieties and new breeds of animals; to reduce crop loss caused by diseases, weeds and insects; to improve crop management techniques and animal husbandry through biological and engineering studies; to develop new and improved methods for the preparation and preservation of food; and to ensure the safety and nutritive value of food. Inquiries: Ottawa/Hull (613) 995-7084 or any regional or district office, see Part II.

AGC 3

Agricultural research/inventory: the Department maintains inventories of agricultural and food related research and development in Canadian universities, industry and governments. Inquiries: Ottawa/Hull (613) 995-9071 or any regional office, see Part II.

AGC 4

Classification/research: the Biosystematics Research Institute conducts research on the classification of insects, mites, nematodes, vascular plants and fungi; the results of this research are available to members of the public, governments and universities. Inquiries: Ottawa/Hull (613) 996-1665.

AGC 5

Agricultural chemicals/technical information: technical pesticide information is available from the Pesticide Unit. Inquiries: Ottawa/Hull (613) 995-9073.

AGC 6

Agricultural products/market development: the Marketing and Economics Branch is responsible for market expansion and increased marketing effectiveness for Canadian agricultural products. It arranges co-operative marketing, provides market information reports and assistance in product promotion, and analyses trends of developments in agriculture and related sectors of the economy. Inquiries: Ottawa/Hull (613) 995-6676 or any regional office, see Part II.

AGC 7

Agriculture and food market situation and outlook programs: the Department provides information on current and prospective markets for agricultural products; an Agricultural Outlook Conference is held each year. Inquiries: Ottawa/Hull (613) 995-9554.

AGC 8

Animal disease and protection: the Health of Animals Directorate is responsible for the control and eradication of livestock diseases within Canada and aims at preventing the introduction of animal diseases into the country by regulating importation, by inspecting and testing imported animals, and by operating a quarantine program. It carries out eradication and control programs and requires inspection and certification for export, and treatment of livestock in transit. Inquiries: Ottawa/Hull (613) 995-5433 or any regional office, see Part II.

Agriculture Canada (Continued)**AGC 9**

Animal pathology/disease research and testing: the Animal Pathology Division conducts research on diseases of food animals, provides laboratory, diagnostic and consultative services to the animal health and meat hygiene programs of the Department, and acts as consultant on the registration, licensing and use of biological agents and other veterinary and pest-control products sold in Canada. It provides diagnostic services to livestock owners and veterinarians at its nine laboratories across Canada. Inquiries: Ottawa/Hull (613) 995-6676 or any regional office, see Part II.

AGC 10

Consumer protection: through the Food Production and Inspection Branch, the Department is responsible for grading, inspecting, licensing and bonding, regulating agricultural production inputs, import and export inspection services and certification, quarantine controls and eradication procedures, and registration of livestock. Inquiries: Ottawa/Hull (613) 995-5880 or any regional or district office, see Part II.

AGC 11

Meat inspection: the Meat Hygiene Division is responsible for the inspection of meats for export and interprovincial movement, and for the inspection of imported meat products. Inquiries: Ottawa/Hull (613) 995-5433 or any regional office, see Part II.

AGC 12

Income services: the Department's Farm Income Services Branch is responsible for the Western Grain Stabilization Administration, crop loss protection, and for policies and legislation aiming to stabilize farm product prices. Funds are provided to farmers for industrial milk subsidies through the Agricultural Stabilization Board under policies developed in co-operation with the Canadian Dairy Commission. Inquiries: Ottawa/Hull (613) 995-4414.

AGC 13

International affairs: the Regional Development and International Affairs Branch represents the Department's interests and responsibilities in international affairs. It is responsible for agricultural aid programs and technical assistance missions, and provides international agricultural intelligence for the Department. Inquiries: Ottawa/Hull (613) 995-8195 or any regional office, see Part II.

AGC 14

Regional development: the Regional Development and International Affairs Branch is responsible for promoting regional agricultural development through the National Farm Management System Program, the recording of livestock performance and the development of general strategies for agricultural development. Inquiries: Ottawa/Hull (613) 995-8195 or any regional office, see Part II.

AGC 15

Pari-mutuel supervision: the Racetrack Division protects the wagering public by supervising racetracks, checking betting practices of tracks, investigating infractions and inspecting pari-mutuel facilities. Inquiries: Ottawa/Hull (613) 998-4922.

AGC 16

Racehorses/drugs/research: the Racetrack Division is responsible for the provision and operation of race surveillance services, including photo finishes and blood and urine analyses; for research relating to the use of drugs on horses; and for race surveillance techniques. Inquiries: Ottawa/Hull (613) 998-4922.

AGC 17

Agricultural Products Board: the Board is empowered to buy, sell or import agricultural products, and to administer food contracts and other commodity operations. It may purchase and hold reserve stocks of agricultural products for later sale, emergency relief purposes in Canada, and food assistance programs abroad. Inquiries: Ottawa/Hull (613) 994-1610.

AGC 18

The Agricultural Stabilization Board supports prices by buying products outright, by making deficiency payments, or by making direct payments to producers at a fixed rate. It assures price support for nine key commodities: cattle, hogs, sheep, industrial milk and cream, corn, soybeans, and oats and barley grown outside the area administered by the Canadian Wheat Board. Inquiries: Ottawa/Hull (613) 995-5404 or any regional office, see Part II.

Regional Offices: Moncton (NB).

Information: Ottawa/Hull (613) 237-3400; regional office, see Part II under Moncton (NB); for how to obtain grants for the arts, see toll-free numbers listing on page 7.

Established by Parliament in 1957 the Canada Council aims to promote and foster the arts in Canada. To achieve this aim, the Council provides a wide range of grants and services to professional artists and arts organizations in dance, music, theatre, the visual arts, and writing and publishing.

CC 1

Aid to professional artists and arts organizations: the Canada Council offers financial assistance to individual artists through its Arts Awards Service. It also provides grants to arts organizations, including dance and theatre companies, orchestras and opera companies, art galleries and artists' run spaces, book and periodical publishers, film and video organizations, and national professional service organizations in the various disciplines. These grants are administered through six sections of the Council—Dance, Music, Theatre, Writing and Publication, Visual Arts, and a new section created in 1982, Media Arts. To be eligible, artists must be Canadian citizens or have resided as immigrants in Canada for five years.

CC 2

Art Bank: the Visual Arts section of the Canada Council is responsible for the Art Bank. The Bank purchases art by contemporary Canadian artists for rental to government departments and non-profit organizations for display in public places.

CC 3

Touring Office: through the Touring Office, the Council awards grants for tours by Canadian performing artists and companies in Canada and offers professional services to artists, tour managers, and organizers. Artists who have resided as immigrants in Canada for five years also are eligible.

CC 4

Explorations Program: this program of grants encourages innovative projects, which seek to address new needs or investigate new directions within or outside existing art forms. Applicants must be Canadian citizens or persons who have resided as immigrants in Canada for five years.

CC 5

Prizes and awards: the Canada Council administers and finances a variety of prizes which are awarded to persons who have contributed to the intellectual and cultural life of Canada, to encourage them in their pursuits. These awards include the Molson Prizes, the Governor General's Literary Awards, and the Killam Prize and Fellowships.

Information: Ottawa/Hull (613) 995-1043; regional offices, see Part II under cities listed above.

CLRB 1

The Canada Labour Relations Board is an adjudicative and regulatory, quasi-judicial administrative tribunal with statutory powers and functions deriving from Part IV and Part V of the Canada Labour Code. The Board's jurisdiction in industrial relations and safety covers federal works/undertakings and businesses, including all forms of interprovincial or international transportation of goods or passengers; broadcasting; communications; longshoring; grain-handling; banking; uranium mining; and certain Crown corporations.

The Board's principal activities are: the granting or revoking of collective bargaining rights; the mediation or adjudication of complaints of unfair labour practice and allegations of unlawful strike or lockout, including the issue of restraining or cease-and-desist orders; the settlement of complaints regarding exercise of rights under safety legislation; and the disposition of appeals concerning the existence of imminent danger. In the Yukon and Northwest Territories, the Board's activities include those that would normally fall under provincial jurisdiction.

Canada Mortgage and Housing Corporation (CMHC)

Head Office
Montréal Road
Ottawa, Ontario
K1A 0P7

Regional Offices: Vancouver (BC), Saskatoon (Sask), Toronto (Willowdale), Montréal (Qué), Saint John (NB).

Local Offices: throughout Canada.

Information: Ottawa/Hull (613) 748-2000; regional offices, see Part II under cities listed above; local offices, see Part II under nearest town; for Canada Mortgage Renewal Plan, see toll-free numbers listing on page 7.

The Corporation administers the National Housing Act and is authorized to insure mortgage loans made by approved lenders for new and existing homeowner housing, new and existing rental housing, and dwellings built by co-operative and non-profit associations.

CMHC 1

Canadian Housing Design Council (CHDC): the Council is a national organization whose aim is to encourage the improvement of housing design in Canada, both in the house building industry and in architecture, through the use of various educational programs and awards. **Inquiries:** Ottawa/Hull (613) 748-2515.

Services offered to the public (CMHC 2-7)**CMHC 2**

Housing information: policy studies and technical reports on various aspects of housing and community development in Canada are available from the Canadian Housing Information Centre. **Inquiries:** Ottawa/Hull (613) 748-2362 or nearest local office, see Part II.

CMHC 3

Children's Environments Advisory Service (CEAS): this group explores ways to improve the quality of residential environments for families with children. CEAS provides leadership and advice in the field of family housing and children's environments through research, and through the development of design guidelines and innovative solutions to physical design problems. **Inquiries:** Ottawa/Hull (613) 748-2000 or nearest regional office, see Part II under cities listed above.

CMHC 4

Advisory services/housing for senior citizens: CMHC undertakes studies on the planning and construction of housing and community services for senior citizens. Films, slides and publications are available to the public. **Inquiries:** Ottawa/Hull (613) 748-2600.

Canada Mortgage and Housing Corporation (Continued)**CMHC 5**

Advisory services/housing for the handicapped: CMHC undertakes studies on the planning and construction of housing and community services for the handicapped. Films, slides and publications are available to the public. Inquiries: Ottawa/Hull (613) 748-2600.

CMHC 6

Mortgage insurance: approved private lenders, such as banks, trust companies and life insurance companies, that make mortgage loans for all types of residential accommodation are insured by the Corporation against loss in the event of default by the borrower. To encourage a reduction in the use of oil for home heating, CMHC will not, except in special circumstances, guarantee mortgages or provide assistance for new housing heated by oil (this policy became effective 1 July 1981). Houses heated by oil will still be eligible for NHA (National Housing Act) financing if they are in areas where natural gas and electricity are not available. These areas include the four Atlantic provinces, the Northwest Territories and the Yukon. Inquiries: Ottawa/Hull (613) 748-2609 or nearest local office, see Part II.

CMHC 7

Standards & guidelines/housing & community development: the Corporation provides norms, guidelines, standards and design/performance criteria relating to building components, housing units and community environments. Inquiries: nearest local office, see Part II.

Loans and subsidies (CMHC 8-18)**CMHC 8**

Canadian Homeownership Stimulation Plan: this plan, which is designed to provide assistance in the purchasing of a home, offers a \$3000 contribution to reduce the mortgage debt for all qualified purchasers of new homes under construction or beginning construction before 1 May 1983. To qualify, buyers must make a down payment of at least 10 per cent above the grant, from their own resources. Inquiries: nearest local office, see Part II.

CMHC 9

Canada Rental Supply Plan: under this plan, interest-free loans are available to build up to 30 000 rental units in areas where vacancy rates are low. Arrangements with the provinces will allow some units to be available to low-income people through rent-to-income assistance; some units will also be suitable for disabled tenants. Inquiries: Ottawa/Hull (613) 748-2000 or nearest local office, see Part II.

CMHC 10

Canada Mortgage Renewal Plan: this plan is to assist people who face financial hardship when their mortgages are renewed at high interest rates, requiring them to make payments of more than 30 per cent of their total household pre-tax income. Non-taxable grants of up to \$3000 are available to eligible homeowners to enable them to bring their payments down to the 30 per cent level. Inquiries: nearest local office, or see toll-free numbers listing on page 7.

CMHC 11

Canada Home Renovation Plan: designed to create jobs, this plan operates in areas of high unemployment and provides homeowners with assistance for a wide range of home improvements and repairs. Under the plan, the Government of Canada will provide eligible homeowners with forgivable loans of up to 30 per cent, to a maximum of \$3000, for the cost of repairing or improving their homes. The loan is tax-free and forgiveness is earned in one year. A minimum of one third of a homeowner's total costs must be spent on contracted labour. Inquiries: nearest local office, see Part II.

CMHC 12

Residential Rehabilitation Assistance Program (RRAP): financial assistance is available to assist residential property owners located in designated areas to bring their properties up to minimum health and safety standards. Inquiries: nearest local office, see Part II.

CMHC 13

Rural and Native Housing Program (RNHP): this program combines all the resources of the National Housing Act for the benefit of rural and native peoples. Financial support is available through a variety of grant and loan arrangements to assist families living in rural communities of 2500 population or less in improving their housing conditions. Inquiries: nearest local office, see Part II.

CMHC 14

Canada Post is responsible for all matters that relate to the delivery of mail to and from places in Canada.

Delivery services (CP 1)**CP 1**

Bulk mail: bag service is available if an individual or firm receives volumes of mail too great to be placed in a regular lock box, or if no box is available.

Certified mail: proof of delivery service is available for letters and parcels mailed to addresses within Canada. COD (cash on delivery) ensures that the customer pays the amount due for merchandise when delivery is made within Canada.

Lock box: mail delivery is available to numbered, locked compartments.

Redirected mail: mail is redirected for individuals and firms that have moved or changed addresses.

Registered mail is the most secure mail system available: a receipt is issued at time of mailing, a record is kept of the article while in the post, and a signature is obtained from the addressee, or representative, before delivery is completed; protection for loss exists in the form of indemnity coverage. Special delivery: mail receives priority handling at destination.

Special services (CP 2-7)**CP 2**

Intelpost, a service offered by Canada Post in conjunction with CNCP Telecommunications and Teleglobe Canada, provides facsimile transmission of printed material via microwave between eight Canadian centres and via satellite to New York, Washington, London (UK), and Amsterdam. Intelpost centres are located at main postal facilities in Halifax, Ottawa, Toronto, Montréal (Qué), Winnipeg, Edmonton, Calgary (Alta) and Vancouver (BC). Inquiries: main post office in any of the previously listed cities.

CP 3

Postpak is a business service for moving goods at one time at a bulk rate to one destination.

The Canada Post Corporation (Continued)**CP 4**

Priority post: a premium courier-like delivery service is available on a contractual basis to business mailers. The next-day service is available door to door, or to and from post offices, almost anywhere in Canada and around the world (International Priority Post). The materials are transmitted in special blue and orange bags and bypass the normal mail stream flow.

CP 5

Telepost, provided by Canada Post and CNCP Telecommunications, combines telex and letter mail delivery for same or next-day delivery in major centres. Messages may be sent through the nearest CNCP message office or via telex.

Public opinion messages: an extension of Telepost, this service enables citizens to send their thoughts on current public issues to MPs and Senators via brief electronic mail messages. Such messages are limited to 15 words, cost less than a regular telegram or telepost message, and may be sent by calling any CNCP public message office. The dictated message will be delivered the next day.

CP 6

Money orders: funds up to the amount of \$200 may be transferred through the mails in the form of money orders.

CP 7

Mail insurance: domestic mail insurance coverage is available for first, third and fourth class items mailed in Canada for delivery in Canada, against loss in transit. There is no damage insurance available for fragile or perishable articles.

Mail classes and rates (CP 8-10)**CP 8**

First class: mail is sent at the regular postal rate by the fastest scheduled transportation.

Second class: this service is available to publishers for the mailing of newspapers and periodicals.

Third class: this service is available for printed material and householder mailings, greeting cards and small parcels weighing up to 500 grams.

Fourth class: this service is available to firms and individuals wishing to send parcels and quantity items weighing between 500 grams and 16 kilograms, at a lower rate than first class delivery. Such items are moved by truck or train.

CP 9

Free and special rates: letters to the Governor General, Parliamentary Library, Senators and Members of Parliament are free. Under certain circumstances free or special rates are available for the mailing of educational films, library books and literature for the blind.

CP 10

Prohibited mail: it is illegal to send in the mail dangerous, toxic, explosive and flammable substances; quickly decayable matter; intoxicating liquors; obscene or immoral matter. Some normally prohibited items may be mailed if in a container approved by the Post Office.

Postage stamps (CP 11)**CP 11**

Philatelic programs: about 250 suggested topics are considered annually for the 30 to 50 new stamps issued each year. Design and subject matter are reviewed by a committee of experts. Requests for selection criteria and suggestions for new issues can be addressed to: Stamp Advisory Committee, Canada Post, Ottawa, Ontario K1A 0B1.

Information on new postage stamp issues and mail orders can also be obtained from: The Philatelic Service, Canada Post, Ottawa, Ontario K1A 0B5.

CP 12

Postal Museum: Canada Post maintains a postal museum, which includes exhibits depicting the history of postal service and stamps in Canada. Researchers may use the research library by appointment: Ottawa/Hull (613) 995-9904, The National Postal Museum, 180 Wellington Street, Ottawa, Ontario K1A 1C6.

CP 13

Federal government forms: most post offices serve as a distribution outlet for federal government application forms for passports, family allowances, old age security pensions, refunds of federal excise tax on gasoline, and individual income tax returns.

The CBC is a publicly owned corporation established by an act of the Canadian Parliament to provide the national broadcasting service in Canada. Under this legislation the CBC is responsible to Parliament, to which it reports each year on its operations through the Minister of Communications.

CBC 1

National broadcasting service: the CBC operates several national services which maintain high levels of Canadian content: a French television network, an English television network, and French AM radio and FM stereo networks. CBC television is available to 99.1 per cent of Canada's population and CBC radio service is within reach of 99.4 per cent.

CBC 2

The Parliamentary Television Network makes the proceedings of the House of Commons available to Canadians via cable.

CBC 3

Radio Canada International, a multilingual international broadcasting service, broadcasts in eleven languages around the world. In addition to its shortwave broadcasts, RCI makes available recorded programs free of charge to broadcasters throughout the world. Canadian Armed Forces radio and television stations in Germany relay certain CBC domestic newscasts in French and English, and RCI supplies them with taped programs from the CBC's French and English networks.

CBC 4

The Northern Radio Service provides locally produced programs in English and native languages, as well as national network programs to the Yukon and Northwest Territories.

Canadian Broadcasting Corporation (Continued)**CBC 5**

Northern Service Television, with the establishment in 1978 of a small production centre in Yellowknife, has the capacity for some northern production and program procurement. It supplements network programs with programs from other regions of Canada and northern-related programs purchased outside the Corporation, some of which are "versioned" with an Inuktitut soundtrack.

CBC 6

The Northern Québec Service provides most of CBC's French and English radio and television programming, as well as some programming in Inuktitut, Cree and other native languages, to residents of Québec's North.

CBC 7

Transmission methods: these include leased channels on the Canadian space satellite Anik, plus more than 85 000 kilometres of microwave and landline connections.

CBC 8

Vidéothèque: a first in Canada, this easily accessible CBC viewing facility in a central location in Ottawa offers programs on videotape, including hundreds of CBC television productions in all broadcasting categories from both English and French networks. Viewing of programs at the Vidéothèque is by invitation or prior arrangement. Inquiries: Ottawa/Hull (613) 234-1218.

Ottawa, Ontario
K1A 0S6

Information: Ottawa/Hull (613) 996-0034.

Export Supply Centre: Ottawa/Hull (819) 997-5714.

The Corporation ties together, through its back-to-back contracts, the requirements of foreign governments and international agencies with the supply capabilities of Canadian producers of goods and services, when a government-to-government arrangement is preferred by the foreign customer and the Canadian supplier. As prime contractor, the Corporation undertakes to deliver a product, service or project package to a foreign customer with a back-to-back obligation from a Canadian supplier. The work to be done is subcontracted to private sector firms.

CCC 1

Export sales: the Corporation's sales cover a wide range of Canadian exports, from individual commercial and defence-related items valued at a few thousand dollars, to high-technology equipment and systems worth 50 million dollars or more. These sales are handled exclusively on behalf of the Corporation by the specialized staff of the Export Supply Centre and the Product Centres of the Department of Supply and Services.

CCC 2

Capital project exports: sales involving high technology systems, packages of project equipment, engineering consulting services and project management to be provided by Canadian firms, are guided by the Corporation's head office staff. An agency of the Canada Council, the Canadian Commission for Unesco provides liaison with governments, organizations, institutions and individuals in Canada who are interested in the activities of the United Nations Educational, Scientific and Cultural Organization. The Commission co-operates with the Unesco Secretariat in Paris and with national commissions in other member states in implementing Unesco programs, and advises the Canadian government through the Department of External Affairs, on all matters relating to Unesco.

The Commission publishes a Bulletin four times a year and a series of Occasional Papers, on specific topics. These publications are available free of charge.

Canadian Dairy Commission (CDC)

Pebb Building
2197 Riverside Drive
Ottawa, Ontario
K1A 0Z2

Information: Ottawa/Hull (613) 998-9490.

The Commission maintains a national dairy policy whose aim is to achieve a sound, healthy and viable dairy industry. Its objectives are to provide efficient milk and cream producers with the opportunity of obtaining a fair return for their labour and investment and to provide consumers with a continuous and adequate supply of dairy products.

CDC 1

Dairy products: under the National Dairy Program, the Commission co-ordinates the national market-sharing quota for industrial milk and cream. It implements government-approved support prices for butter and skim milk powder in its offer-to-purchase program, and purchases, stores and disposes of surplus butter and skim milk powder. It also has a large export marketing program for whole milk products.

CDC 2

Dairy product export assistance: the CDC pays for export assistance on dairy products approved for export, subject to certain conditions.

CDC 3

Subsidies on industrial milk production: under the National Dairy Program, the Commission makes direct subsidy payments to eligible farmers on their qualifying industrial milk and cream shipments used to meet domestic and approved export requirements.

Canadian Film Development Corporation (CFDC)

Head Office

Information: Montréal (Qué) (514) 283-6363; regional offices, see Part II under Toronto or Vancouver.

The Corporation is charged with promoting the development and growth of the private sector of the Canadian film industry. It carries out its mandate by assisting the production and distribution of Canadian theatrical and television films produced by privately-owned Canadian companies, and by promoting the industry at major film events in Canada and abroad.

Film development and production (CFDC 1-5)**CFDC 1**

Film production/financial assistance: development and interim loans are available to producers to help them develop projects or start filming while finalizing permanent financing. These loans are repayable with interest and fees. In specific cases, equity investments are made in films.

CFDC 2

Film production/project selection: the Corporation participates in films which have significant Canadian, creative, artistic and technical content. It determines which films it will assist, following careful assessment of each project by its consultants and script readers. Scripts or outlines may be submitted to any of the three CFDC offices.

CFDC 3

Co-productions: Canada has entered into co-production treaties with the United Kingdom, France, Italy, West Germany and Israel. Through its Montréal office, the Corporation receives and evaluates all applications for the certification of a film as an official co-production. It makes a recommendation to the Minister of Communications for either the approval or rejection of each application.

Canadian Film Development Corporation (Continued)**CFDC 4**

Film distribution assistance: short-term loans are available to Canadian distributors to help them launch Canadian features in Canada. The program covers theatrical and television releases. Promotional materials must be created and produced by Canadian companies. Decisions are based on detailed proposals submitted to CFDC officers.

CFDC 5

Film promotion: the CFDC promotes the film industry and provides information at important events such as the American Film Market in Los Angeles, the Cannes Film Festival, and the Montréal, Toronto and Banff Film Festivals.

Film certification (CFDC 6)**CFDC 6**

Film and video certification: the Minister of Communications has sole responsibility for certifying that a film or video production is Canadian and that it meets the criteria set out in the Income Tax Regulations. All questions regarding certification should be addressed to: The Canadian Film and Video Certification Office, Arts and Culture Branch, Department of Communications, 365 Laurier Avenue West, Room 1615 A, Ottawa, Ontario K1A 0C8. The Department is concerned with the interests of the Canadian consumer. It is responsible for the administration of the Canada Business Corporations Act and the Patent, Trademark, Copyright and Industrial Design Act.

CCA 1

Bankruptcy: in its administration of the Bankruptcy Act, the Bankruptcy Branch provides assistance in filing consumer bankruptcies, and protects the rights and interests of both creditors and debtors during bankruptcy proceedings. It regulates the bankruptcy process through the licensing and supervision of trustees in bankruptcy and is responsible for the detection of abuses of the bankruptcy process both before and after bankruptcy, with subsequent investigation and prosecution if necessary. It also maintains and disseminates general and statistical information on bankruptcy. Inquiries: Ottawa/Hull (819) 996-3964 or any regional office, see Part II under cities listed above or nearest district office, see Part II.

CCA 2

Consumer Funding Program: grants and contributions are available to national and local consumer groups. These consumer organizations respond to consumer complaints and inquiries, assist in the resolution of consumer problems, and represent the interests of consumers before federal government regulatory bodies and other federal agencies. Consumer Services Branch. Inquiries: Ottawa/Hull (819) 997-4440 or any regional office, see Part II under cities listed above or nearest district office, see Part II.

CCA 3

Consumer protection against fraud, and the energy consumption labelling of consumer products: the Consumer Products Branch is responsible through inspection for the prevention of fraud in the production, labelling, packaging, advertising and sale of most products, such as textiles, precious metals, furs, prepackaged products and manufactured foods. Graded agricultural products are similarly inspected at the retail level of trade. The Branch is also responsible for the Energuide program, which requires the energy consumption labelling (in terms of kilowatt hours per month) of major electrical household appliances. Energuide directories are available to permit consumers to compare the costs of operating different models before they buy. Inquiries: Ottawa/Hull Energuide, textiles, precious metals, furs, prepackaged products: (819) 997-1177; manufactured foods: (819) 997-1591; graded agricultural products: (819) 997-4646; or nearest regional, district or field office, see Part II.

CCA 4

Consumer protection/approval and inspection of weighing and measuring devices: the Legal Metrology organization is responsible for ensuring accurate measurement in the Canadian marketplace. Before a weighing and measuring device can be used in a trade application in Canada, it must receive approval as to type from the Legal Metrology Branch in Canada, and be verified to be in accordance with relevant legislation by means of an initial inspection conducted by the Department's field forces. These procedures apply to weighing and measuring devices of all types, such as light and heavy duty scales, electricity meters, natural gas meters, and gasoline dispensers. Inquiries regarding the type approval of weighing and measuring devices should be directed to the Legal Metrology Branch in Ottawa: Ottawa/Hull (613) 996-3035; inquiries regarding the initial inspection of all types of weighing and measuring devices: any regional office, see Part II under cities listed above, or nearest district office, see Part II.

CCA 5

Consumer protection/safety and inspection of consumer products: for compliance with the Hazardous Products Act and regulations, the Department inspects and tests consumer products such as household chemicals, toys and textiles. Product Safety Branch. Inquiries: Ottawa/Hull (819) 997-1194 or nearest regional, district or field office, see Part II.

Consumer and Corporate Affairs (Continued)**CCA 6**

Consumer Services Branch: this Branch administers the Tax Rebate Discounting Act in Ontario, Québec, New Brunswick and Newfoundland; in Manitoba, it administers the Act in conjunction with the provincial government. The Branch also promotes increased co-operation between business and consumers, assists in establishing an effective consumer movement, advocates on behalf of vulnerable consumers, and strengthens the consumer's voice in government. Inquiries: Ottawa/Hull (819) 997-4320 or any regional office, see Part II under cities listed above or nearest district office, see Part II.

CCA 7

Incorporation of businesses: the Corporations Branch provides access to corporate information filed with the Department and processes applications for the incorporation, amendment, dissolution or amalgamation of businesses. Inquiries: Ottawa/Hull (819) 997-1142 or any regional office, see Part II under cities listed above, or nearest district office, see Part II.

CCA 8

Misleading advertising: the Marketing Practices Branch, in administering the Combines Investigation Act, receives complaints and conducts inquiries in relation to misleading advertising and deceptive marketing practices. Under its Program of Compliance, the Branch provides opinions on the application of the Act to proposed advertisements. The Misleading Advertising Bulletin, published quarterly, contains summaries of prosecutions that resulted in convictions, and policy statements in relation to various issues. Inquiries: Ottawa/Hull (819) 997-3333 or any field office, see Part II. Complaints: Ottawa/Hull (819) 997-4282 or any field office, see Part II.

CCA 9

Industrial designs and copyright: the Copyright and Industrial Designs Branch administers the Copyright Act, which provides for the registration of copyright for original literary, dramatic or musical works, and the Industrial Design Act, which provides for the registration of industrial designs for original ornamentation applied on or to an article of manufacture. Inquiries: Ottawa/Hull (819) 997-1725 or any regional office, see Part II under cities listed above or nearest district office, see Part II.

CCA 10

Patents: the Patents Branch administers the Patent Act and regulations that provide for the granting of patents for inventions. It also offers copies of patents for sale and publishes the Patent Office Record, which gives descriptions of inventions patented the previous week. Inquiries: Ottawa/Hull (819) 997-1936; or any regional office, see Part II under cities listed above; or nearest district office, see Part II.

CCA 11

Trade marks: the Trade Marks Branch administers the Trade Marks Act. It is responsible for the registration of trade marks, which identify the products or services of a particular manufacturer. The Branch also provides and maintains a complete record of all registered trade marks, pending and refused applications, and registered users licensed to use trade marks. Information: Ottawa/Hull (613) 993-2975.

ELC 1

The Chief Electoral Officer is responsible for the supervision of the administrative conduct of federal elections in Canada and for ensuring that all provisions of the Canada Elections Act are complied with and enforced. Major activities include the training of returning officers, the revision of polling division boundaries, the acquisition of election material and supplies, the maintenance of a registry of political parties, and the certification of statutory payments to be made to auditors, political parties, and candidates under the election expenses provisions of the Act. Pursuant to the Electoral Boundaries Readjustment Act and following each decennial census, the Chief Electoral Officer must calculate the number of electoral districts to be assigned to each province according to rules contained in section 51 of the Constitution Act, and prepare population distribution maps for use by the 11 electoral boundaries commissions that are directly responsible for readjusting federal electoral district boundaries.

Emergency Planning Canada (EPC)

Head Office
Lester B Pearson Building
Tower B, 3rd Floor
125 Sussex Drive
Ottawa, Ontario
K1A 0W6

Regional Offices: provincial capitals.

Information: Ottawa/Hull (613) 992-3322; regional offices, see Part II under any provincial capital.

EPC is responsible for the co-ordination of planning for the federal response to peacetime emergencies and for the continuance of government in the event of a nuclear attack. Special arrangements would ensure the operation of a relocated federal emergency government at various sites across Canada.

EPC 1

Emergency planning courses: these courses are offered to mayors and elected officials at various government levels, and to emergency planners in federal, provincial and municipal governments and in industry. Inquiries: Federal Study Centre, Amprior (Ont), K7S 3H2; Ottawa/Hull (613) 992-3322; or any regional office, see Part II under any provincial capital.

EPC 2

Canada Oil and Gas Land Administration (COGLA): established through the combination of the previous Resource Management Branch of EMR and elements of the Non-Renewable Resources Branch of the Department of Indian and Northern Affairs, COGLA is the prime federal regulatory agency responsible for activity associated with the exploration and production of mineral and energy resources in the Canada Lands, an area comprising 6.5 million square kilometres in the Arctic and the eastern and western offshore, and 3.9 million square kilometres in the Yukon and Northwest Territories. The organization administers the provisions of the Canada Oil and Gas Regulations, the Canada Oil and Gas Production and Conservation Act and the Canada Oil and Gas Act, which amends the Oil and Gas Production and Conservation Act. Inquiries: Ottawa/Hull (613) 993-3760.

EMR 2

Canadianization: a major goal of the National Energy Program is to increase opportunities for Canadians in the petroleum industry. Specifically, the federal government has set three major goals: at least 50 per cent Canadian ownership of oil and gas production by 1990; Canadian control of a significant number of large oil and gas firms; and rapid growth of the share of the oil and gas sector owned by the government of Canada. Energy Sector, Economic and Policy Analysis Sub-Sector, Canadianization Branch. Inquiries: Ottawa/Hull (613) 993-3760.

EMR 3

Canadian Ownership and Control Determination Program (COCD): this program is designed to measure the Canadian ownership rate (COR) and determine the control status (CS) of individuals, corporations, partnerships and trusts that require a COR/CS determination in order to receive benefits under the National Energy Program and in particular through the Petroleum Incentives Program. Petroleum Incentives Administration. Inquiries: Ottawa/Hull (613) 996-4444.

EMR 4

Coal/identification/estimates: the Geological Survey is responsible for identifying, evaluating and estimating the quality, quantity and distribution of coal. Inquiries: Ottawa/Hull (613) 995-4029.

EMR 5

Coal policy: the development of federal coal policies is the responsibility of the Coal Branch, Energy Sector, which also provides information and conducts technical studies on coal and related matters. Inquiries: Ottawa/Hull (613) 995-1118.

EMR 6

Coal resources and reserve appraisal/research and development: CANMET investigates the quality and recoverability of coal. It is responsible for the research and development of technologies pertaining to coal mining and beneficiation, coal carbonization, gasification and liquefaction. Technology Information Division, CANMET. Inquiries: Ottawa/Hull (613) 995-4029 or 995-4039.

EMR 7

Coal utilization package: this program is designed to increase the contribution of coal to the energy supply of Atlantic Canada by supporting the development of new coal utilization technologies, up to the commercial application stage, that will permit coal to be consumed in more efficient and environmentally benign ways. The federal government will provide \$50 million over the period 1980-83, with provision for a further \$100 million in 1984-85, to support the development and commercialization of new coal utilization technologies. This funding will go toward demonstrating fluidized-bed combustion in a commercial-scale generating station in Cape Breton, where it would directly displace oil-fired capacity, and toward the development of other emerging technologies of importance, especially the preparation and combustion of coal-water slurries. Energy Sector, Coal Branch. Inquiries: Ottawa/Hull (613) 995-1118.

EMR 8

Electrical policy and power: the Energy Sector maintains electrical statistics, including information on electrical policy, pricing, utilities, tidal power and generating stations. Inquiries: Ottawa/Hull (613) 995-9351.

EMR 9

Electrical power generation/Lower Churchill Development Corporation: this joint federal government-Newfoundland organization was created to promote the implementation of the next hydroelectric project of the Lower Churchill Development Corporation, thereby displacing oil-fired electricity in Newfoundland and extending the future supply of hydro power to the region. A choice between the two major projects — Gull Island and Muskrat Falls — has not yet been made. Energy Sector, Electrical Energy Branch. Inquiries: Ottawa/Hull (613) 995-9351.

EMR 10

Electrical power generation/Utility Off-Oil Fund: this program is designed to substantially reduce the amount of oil used to generate electricity in the Atlantic region and, consequently, to reduce present and future electricity costs. An immediate priority is to replace existing oil-fired capacity with lower-cost alternatives. The Utility Off-Oil Fund has been established to finance, on a grant basis, up to 75 per cent of the cost of environmentally-acceptable conversions of oil-fired electricity plants to coal. This offers the opportunity for immediate conversions at plants such as Coleson Cove in New Brunswick and Tufts Cove in Nova Scotia. The program will consist of a small number of individual agreements with provinces and utilities covering all relevant specifics of each coal conversion (financing, technology, environmental control measures, intellectual property, and so on). Energy Sector, Conservation and Non-Petroleum Energy Sub-Sector. Inquiries: Ottawa/Hull (613) 995-9351.

EMR 11

Emergency oil stocks/inventory: the Energy Sector studies the adequacy of industry reserves to meet supply shortfalls and to meet the need for additional oil stocks. Petroleum Sub-Sector, Energy Sector. Inquiries: Ottawa/Hull (613) 995-9351 ext 146.

EMR 12

Energy and mineral resources/identification and estimates: the Geological Survey is responsible for the identification and evaluation of non-renewable energy sources (oil, gas, coal and uranium) and mineral resources, and for the provision of estimates of their quality, quantity and distribution. Geological Survey of Canada. Inquiries: Ottawa/Hull (613) 995-4089.

EMR 13

Energy commodity value: comparative data are available on the commodity value of natural gas and its competitive position in relation to other fuels. Petroleum Sub-Sector, Energy Sector. Inquiries: Ottawa/Hull (613) 995-9351 ext 226.

EMR 14

Energy/public information: general inquiries, Ottawa/Hull (613) 995-3065.

EMR 15

Energy statistics: energy statistics are maintained on the supply, demand and prices for all energy commodities. Energy Statistics Section, Energy Policy Analysis Sector. Inquiries: Ottawa/Hull (613) 996-9533 ext 256.

Energy Supplies Allocation Board: this Board was established by the Energy Supplies Emergency Act, 1979. It is responsible, in a national emergency, for the allocation of crude oil to refiners, for the allocation of refined products to wholesale petroleum customers, and for the administration of a rationing program to reinforce the allocation programs, as required. When there is no emergency, the Board monitors trends in petroleum supply and demand in order to evaluate the need for recommending the introduction of a mandatory allocation program as provided by the Act. Energy Supplies Allocation Board. Inquiries: Ottawa/Hull (613) 996-3559.

EMR 17

Heavy oil development/fossil fuel research, development and demonstration: the government of Canada and the government of Saskatchewan have established this program to encourage the research, development and demonstration of new technologies that facilitate expanded production and use of Saskatchewan's fossil fuel resources, with particular emphasis on heavy oil and lignite coal. Canada and Saskatchewan have agreed to share equally the costs of the program, which will be administered by Saskatchewan under the general direction of a federal-provincial management committee.

Natural gas pricing: information regarding the pricing system for natural gas is available from the Natural Gas Branch, Petroleum Sub-Sector, Energy Sector. Inquiries: Ottawa/Hull (613) 995-9351.

EMR 19

Nuclear energy technology/research and development: research is conducted on radioactive ores to develop uranium extraction and chemical analysis techniques and to investigate materials for heavy water plant construction. Technology Information Division, CANMET. Inquiries: Ottawa/Hull (613) 995-4064.

EMR 20

Nuclear policy: information pertaining to Canadian uranium, thorium and nuclear potential, as well as advice and guidance on uranium, nuclear policy and related matters, is available from the Conservation and Non-Petroleum Sector. Inquiries: Ottawa/Hull (613) 995-1118.

EMR 21

Oil and gas resources/research and development: CANMET investigates oil and gas resources through characterization of the chemical and physical properties of unprocessed bitumens and heavy oils, and of the conversion products from bitumens, heavy oils and coal. Technology Information Division, CANMET. Inquiries: Ottawa/Hull (613) 995-4075.

EMR 22

Oil and gas taxation/Natural gas and Gas Liquids tax: under the National Energy Program, the Natural Gas and Gas Liquids Tax is one of several tax measures the federal government has implemented to redress the revenue imbalance between the producing provinces and the industry, and to carry out initiatives under the National Energy Program. Financial and Fiscal Analysis Branch, Economic and Policy Analysis Sub-Sector, Energy Sector. Inquiries: Ottawa/Hull (613) 995-9351.

EMR 23

Oil and gas taxation/Petroleum and Gas Revenue tax: the Petroleum and Gas Revenue Tax program establishes a tax on net-operating revenue, minus a 25 per cent resource allowance, for revenue derived from the production of oil and gas. The taxation rate between 1 June 1982 and 31 May 1983 has been set at 14.67 per cent. With the resource allowance deduction, the effective rate of taxation is 11 per cent. Financial and Fiscal Analysis Branch, Economic and Policy Analysis Sub-Sector, Energy Sector. Inquiries: Ottawa/Hull (613) 995-9351.

EMR 24

Oil and gas taxation/Petroleum Compensation Charge: the Petroleum Compensation Charge is a tax on all petroleum consumed in Canada. The revenue generated compensates importers of foreign crude oil for the difference in the price of domestic and imported oil, and creates world-level prices for certain classes of Canadian oil. Oil Pricing and Compensation Branch. Inquiries: Ottawa/Hull (613) 995-2500.

EMR 25

Oil and gas technology/research and development: research is conducted in oil sands mining and processing methods, and in refining processes for bitumen and heavy oils. Technology Information Division, CANMET. Inquiries: Ottawa/Hull (613) 995-4075.

EMR 26

Oil and gas transportation: the Energy Sector monitors and assesses oil and natural gas transportation, oil and natural gas pipeline proposals, and liquified natural gas (LNG) and oil tanker proposals. Petroleum Sub-Sector, Energy Sector. Inquiries: Ottawa/Hull (613) 995-9351.

EMR 27

Oil Import Compensation Program: this program was established in 1974 to compensate importers of foreign crude oil for the difference between the world oil price they pay and the domestic price paid by other Canadian refiners with access to domestic crude oil. Oil Pricing and Compensation Branch. Inquiries: Ottawa/Hull (613) 995-2500.

EMR 32

Petroleum Incentives Program (PIP): this program is designed to encourage Canadians to participate in petroleum and gas exploration and development. Benefits depend on the Canadian ownership rate and control status, and on the area and type of undertaking. An applicant for an incentive can be a corporation, partnership, trust or individual. Energy Sector, Petroleum Incentives Administration. Inquiries: Ottawa/Hull (613) 996-2611.

EMR 33

Petroleum Monitoring Agency (PMA): this agency of EMR reports semi-annually on the state of the oil and gas industry, in particular on sources of funds, uses of funds, cash flow, financing of investments, and gross production of crude oil, natural gas and natural gas liquids. Petroleum Monitoring Agency. Inquiries: Ottawa/Hull (613) 996-4444.

EMR 34

Petroleum refinery technology: information is provided on the Canadian refining system, refining technology and the abilities of Canadian refiners to meet present and projected demands for petroleum products. Petroleum Sub-Sector, Energy Sector. Inquiries: Ottawa/Hull (613) 995-9351 ext 220.

EMR 35

Uranium mining and processing: CANMET monitors the development of Canada's uranium resources and provides annual assessments of ore reserves, existing productive capacity and the technical feasibility of potential uranium mines. Technology Information Division, CANMET. Inquiries: Ottawa/Hull (613) 995-4075.

Energy conservation and renewable resources (EMR 36-64)**EMR 36**

Atlantic Energy Conservation Investment Program (AECIP): this program involves the provision of grants to industrial, commercial and institutional establishments in the Atlantic provinces to finance a portion of their energy conservation investments. The federal government is providing \$40 million, over a five-year period, for grants covering up to 50 per cent of capital costs for projects offering energy savings payback in periods of between three and eight years. The program will be administered, promoted and monitored by EMR through Conservation and Renewable Energy offices in the Atlantic provinces. AECIP will complement the National Energy Audit Program administered by all the Atlantic provinces under existing federal/provincial agreements. Energy Conservation and Oil Substitution Branch. Inquiries: Ottawa/Hull (613) 995-9447.

EMR 37

Arctic housing standards: energy conservation standards for Arctic housing and housing in permafrost areas, taking into account climate conditions, energy supplies and costs, and future housing requirements, will be developed in conjunction with the provincial and territorial governments and will apply to all federally funded and insured housing units constructed. A committee has been established involving representatives of the involved provinces and territories, as well as those from Energy, Mines and Resources Canada, Indian and Northern Affairs Canada, Public Works Canada and the Canada Mortgage and Housing Corporation, to develop the standards. Energy Conservation and Oil Substitution Branch. Inquiries: Ottawa/Hull (613) 995-1118.

Buildings and residences/Super Energy-Efficient Housing Demonstration: this program will provide a total of \$6 million to assist in the construction of approximately 300 super energy-efficient housing units across the country over a three-year period from 1981-82 to 1983-84. Funding available under the program will be used to assist in the design and evaluation of houses constructed in the demonstration projects, and to train builders and trades people in the appropriate techniques involved in construction. Details of the program were developed in co-operation with the Housing and Urban Development Association of Canada (HUDAC), which will be managing and implementing the program on behalf of EMR. A federal advisory committee has been established to provide direction and oversee the program. Energy Conservation and Oil Substitution Branch. Inquiries: Ottawa/Hull (613) 995-1118.

EMR 39

Canada Oil Substitution Program (COSP): part of the National Energy Program, COSP provides government of Canada grants to homeowners and small businesses to help them meet the costs of converting their heating systems from oil to more plentiful domestic energy sources. COSP is a ten-year program, with the major objective of reducing the use of oil to less than ten per cent of total energy use in residential space and water heating. There are two parts to COSP: COSP operates through gas and electric utilities to provide grants towards conversion to natural gas and electricity in regions where supply is available. The program is also designed to assist those who convert to energy sources other than gas and electricity, such as wood, solar heating or propane.

COSP provides taxable grants covering half the eligible costs of materials and labour for conversion of the heating system, up to a maximum grant of \$800 for single-family residences (including single, detached houses; semi-detached or row houses where each unit has its own heating system; mobile homes, which have their own heating systems and individually heated buildings, such as farm buildings, warehouses, factories, churches, schools, hospitals, homes for senior citizens, public libraries. For residential buildings containing two or more self-contained family dwelling units, grants vary in proportion with the number of units in the building.

COSP grants may also be obtained for conversions by businesses and by non-profit organizations, churches, school boards, hospitals, homes for the aged, and libraries. COSP applies to conversions undertaken on or after 28 October 1980 and before 31 December 1990. The date of conversion to be eligible for COSP is the date on which equipment was installed and ready for use, normally the date of inspection. Canada Oil Substitution Program. Inquiries: Conservation and Renewable Energy Offices in each province and territory, see Part II or toll-free numbers listing on page 14; in Ottawa/Hull (613) 995-1801.

Canadian Home Insulation Program (CHIP): this program is administered by EMR to promote residential energy conservation. The processing of grants is carried out by the Canada Mortgage and Housing Corporation under contract with EMR. Under this program, owners, landlords or tenants may receive up to \$500 for the insulation of single family homes, semi-detached or rowhouse units, small apartment buildings and non-profit hostels.

To be eligible, a structure must be a principal residence, no more than three storeys high, that was built before 1 January 1971. In Nova Scotia and Prince Edward Island, however, homes that were not eligible for a grant under the former provincial Home Insulation Program qualify for CHIP grants providing they were built prior to 1 January 1977. In the Yukon, the Northwest Territories and Newfoundland, homes built before 1 September 1977 are eligible for a CHIP grant. The basic taxable grant covers 60 per cent of insulating material costs or combined material and labour costs to a maximum of \$500. Energy Conservation and Oil Substitution Branch. Inquiries: CHIP regional offices listed above, or see toll-free numbers listing on page 13; technical information only, Ottawa/Hull (613) 995-1118.

Canertech is a new Crown corporation created under the National Energy Policy of October 1980 as the government of Canada's venture capital development company. Its mandate is to invest in energy conservation technology and renewable energy conservation systems; its objective is the successful commercialization of innovative products, processes and services through the provision of equity financing and management, and marketing and technical assistance to the private sector. Canertech may also produce, distribute and market directly, as well as indulge in research, development and demonstration, where necessary. The Corporation has been established initially as a wholly-owned subsidiary of Petro-Canada, although it is to become a separate and distinct Crown corporation at an appropriate stage in its development. Inquiries: Winnipeg (204) 949-1160 or Ottawa/Hull (613) 238-8959.

EMR 42

Conservation and Renewable Energy Development and Demonstration Program: federal-provincial cost-sharing agreements provide funds to undertake projects in the development and demonstration of renewable energy sources and conservation measures. The agreements aim to introduce to the marketplace new technologies, products and services. Any Canadian business may apply, if undertaking a project designed to increase energy efficiency and contribute to national energy and industrial policies. These programs are available in British Columbia, Saskatchewan, Manitoba, Ontario, New Brunswick, Nova Scotia, Newfoundland and the Yukon and Northwest Territories. A similar federal program is available in Prince Edward Island. Coal and Alternative Energy Branch. Inquiries: Ottawa/Hull (613) 995-9447.

EMR 43

Energy conservation and oil substitution: the Energy Conservation and Oil Substitution Branch (ECOS) administers industrial and home energy conservation programs including energy audits, insulation programs and the Canada Oil Substitution Program. Energy Sector. Inquiries: Ottawa/Hull (613) 995-9447.

EMR 44

Energy conservation equipment/fast tax write-off: the 25 May 1976 federal budget added Class 34 to Schedule 2, Capital Cost Classes of the Income Tax Regulations. This entitled taxpayers to a two-year tax write-off to cover the capital cost of equipment that would otherwise be placed in Class 2 or Class 8 of the Regulations. On 11 December 1979, the period was extended to cover assets purchased before 1985, and additions were made to the list of qualifying materials. Energy Conservation and Oil Substitution Branch. Inquiries: Ottawa/Hull (613) 995-9447.

EMR 45

Energy conservation technology/research and development: investigation into energy conservation is conducted in the areas of conventional fuel combustion processes, new combustion processes, energy recovery and energy storage. Ener\$ave/information on energy conservation and renewable energy: the Ener\$ave Advisory Service is a national information centre responsible for promoting home energy conservation and substitution of oil with other forms of home heating. Located in Ottawa, its principal services include the provision of a free computerized analysis of a householder's insulation requirements, and operation of the HEATLINE. Information is also available on renewable energy forms such as solar, biomass, wind, geothermal, tidal and ocean energy, small-scale hydroelectric power and new technological advances such as heat pumps. The HEATLINE is a toll-free telephone advisory service that responds to general and technical questions on home energy conservation and the Canada Oil Substitution Program. Inquiries: call HEATLINE, see toll-free numbers listing on page 15; in Ottawa/Hull (613) 995-1801.

EMR 48

Forest Industry Renewable Energy Program (FIRE): FIRE is a capital cost-sharing program to encourage the substitution of such biomass fuels as wood, municipal waste, peat and agricultural products for purchased energy. Financial incentives are provided to convert existing facilities or to install new facilities that utilize biomass fuels, so as to reduce dependence on non-renewable resources. Contributions of up to 20 per cent of capital costs will be provided for approved projects. Between 1981 and 31 March 1986, \$288 million will be made available. Industries, institutions and all other organizations willing to install facilities for the production of heat and electricity using biomass residues rather than energy from non-renewable fuel sources may apply. Energy Conservation and Oil Substitution Branch. Inquiries: Ottawa/Hull (613) 995-9447.

EMR 49

Government facilities retrofit program for Crown-owned buildings: the purpose of this program is to implement capital intensive, cost-effective energy conservation measures to reduce energy consumption in federal government buildings. This is to be achieved through three main initiatives: 1) implementation of restrictive measures for the control of environmental systems; 2) implementation of better routine preventive maintenance of installed building systems; and 3) the conducting of energy audits and analyses leading to adaptation of energy conservation measures to building enclosures and installed electrical mechanical systems. For this program, \$120 million are available for the fiscal period 1981-82 to 1985-86. Energy Conservation and Oil Substitution Branch. Inquiries: Ottawa/Hull (613) 995-1118.

EMR 50

Industrial Energy Management Program: this program of co-operation among the Canadian Manufacturers Association, ECOS, and the 16 Industry Task Forces is designed to assist all manufacturing companies, regardless of size, to reduce energy costs by providing them with technical information, training sessions and related advice. EMR 51

Industry and commerce/National Energy Audit Program: this program will help industrial and commercial establishments to identify areas of energy waste and to plan and implement corrective measures. The federal government will provide funds over a three-year period between 1981 and 31 March 1984 to be applied on the basis of a cost-sharing ratio (80/20) with the provinces. This program is being implemented through federal/provincial agreements aimed at encouraging energy conservation in industry, commerce and institutions. Industrial and commercial businesses will be eligible for on-site energy audits and follow-up consultant advice grants. Energy Conservation and Oil Substitution Branch. Inquiries: Ottawa/Hull (613) 995-1118.

EMR 52

Industry and commerce/National Energy Bus Program: the federal government and participating provinces provide a free service to industry and business to identify energy waste and opportunities to reduce energy consumption and costs. By means of mobile, computer-equipped vehicles, on-site plant audits are conducted to analyse energy use patterns, and recommendations are offered on possible corrective measures. The program is implemented by federal-provincial cost-sharing agreements. Program administration is the responsibility of the provinces. Energy Conservation and Oil Substitution Branch. Inquiries: Ottawa/Hull (613) 995-9447.

EMR 53

Industry and commerce/task forces: the aims of the task forces are to promote energy conservation in Canadian business, to report on conservation efforts and to maintain contacts with government representatives. The program activities of the task forces include: holding seminars and workshops for exchange of information on energy conservation measures and energy-efficient technologies; setting voluntary energy efficiency improvement targets and regularly reporting progress toward these goals; preparing annual energy efficiency progress reports; consulting with government officials; and serving as key focal points for government-industry dialogue on energy conservation issues. Energy Conservation and Oil Substitution Branch. Inquiries: Ottawa/Hull (613) 995-1118.

EMR 54

Oil substitution/federal buildings: the Department aims to displace oil usage by 40 per cent in federal department and agency buildings. This will be achieved by funding projects which propose to replace oil with other fuel sources, such as propane and natural gas. Twenty-five and a half million dollars in capital funds has been allocated to this program for the fiscal period 1981-82 to 1990-91. Energy Conservation and Oil Substitution Branch. Inquiries: Ottawa/Hull (613) 995-9447.

EMR 55

Remote Community Demonstration Program: this program will promote awareness and assist in the development of oil reduction and displacement opportunities in remote communities in the territories and provinces. These opportunities consist of alternative energy supply technologies and energy conservation measures in the generation of electrical power and in space heating. In two phases over the period of summer 1982 to March 1986, the program will first, assist remote communities in identifying and assessing their off-oil options and second, demonstrate a limited number of technically and economically feasible options in selected areas across the country. Other authorities responsible for or having a direct interest in remote community energy supply are eligible for assistance under the program. Conservation and Non-Petroleum Sector. Inquiries: Conservation and Renewable Energy Offices in each province and territory, see Part II or Ottawa/Hull (613) 995-9447.

Boundaries/provincial and territorial/surveys: provincial and territorial boundaries set by federal-provincial boundary commissions are surveyed by the Legal Surveys Division, Surveys and Mapping. Inquiries: Ottawa/Hull (613) 995-4341.

EMR 72

Boundary/Canada-United States/surveys: the International Boundary Commission is responsible for the maintenance, inspection and resurveying of the Canada-United States boundary, and for enforcing the regulations controlling construction adjacent to the boundary. Inquiries: Ottawa/Hull (613) 995-4960.

EMR 73

Constituency maps/electoral boundaries: maps showing provincial and territorial population distributions after a census and optional boundaries for electoral districts are prepared by the Surveys and Mapping Branch. Inquiries: Ottawa/Hull (613) 995-4341. Maps are available from the Canada Map Office. Inquiries: Ottawa/Hull (613) 998-3865.

EMR 74

Continental shelf surveys: offshore geological surveys are carried out to prepare maps and reports on Canada's continental shelves and slopes. Geological Survey. Inquiries: Ottawa/Hull (613) 995-4089.

EMR 75

Earth physics/research and information: the Earth Physics Branch operates seismological, magnetic and geodynamic observatories; produces magnetic charts, regional gravity maps and forecasts of geomagnetic activity; studies earthquakes, seismic risk, geothermal energy, permafrost, magnetic storms, compass variation, earth structure and dynamics, the physical properties of rocks, the interior of the earth and natural and induced geophysical hazards. Inquiries: Ottawa/Hull (613) 995-5558.

EMR 76

Explosives Act/administration: the Explosives Branch is responsible for the administration of the Explosives Act including the authorization, inspection, licensing, import, storage, sale, transportation and manufacture of explosives. Inquiries: Ottawa/Hull (613) 593-7211.

EMR 77

Fossil, mineral and rock identification: the Geological Survey identifies rock, mineral and fossil samples submitted by the public. Inquiries: Ottawa/Hull (613) 995-4982.

EMR 78

Fossil research: the Geological Survey is responsible for the dating, correlation and study of the environment of rocks, their palaeoenvironment and their palaeogeography. Inquiries: Ottawa/Hull (613) 995-4089.

EMR 79

Gazetteer of Canada: the Gazetteer of Canada is a series of 11 volumes (one for each province and territory except Québec, which has done its own), that contains approved Canadian geographical names, the National Topographic System map sheet number on which the name was approved, and the latitude and longitude of the location where the name applies. Inquiries: Ottawa/Hull (613) 992-3892.

EMR 80

Geodetic surveys: the Geodetic Survey provides national geodetic control survey data; advisory services on geodesy; field survey methods; and instrumentation, computations and adjustments. Geodetic Survey, Surveys and Mapping. Inquiries: Ottawa/Hull (613) 995-4421.

EMR 81

Geographical maps: information on geographical maps and on the National Atlas of Canada, the Canada Gazetteer Atlas, the International Map of the World, and general purpose base maps of Canada and its regions is available from the Geographical Services Directorate. Inquiries: Ottawa/Hull (613) 992-1997.

EMR 82

Geographical names: information on geographical names is available from the Secretariat, Canadian Permanent Committee on Geographical Names. Inquiries: Ottawa/Hull (613) 992-3892.

EMR 83

Geological dating of rocks: the Geological Survey is responsible for the dating of consolidated and surficial materials as an aid to correlation of strata. Inquiries: Ottawa/Hull (613) 995-4089.

EMR 84

Geological maps/sales: geological maps are sold. Inquiries: Ottawa/Hull (613) 995-4342.

Energy, Mines and Resources Canada (Continued)**EMR 85**

Geological surveys and research: the Geological Survey provides data on the nature and magnitude of past and present processes that affect the evolution of the landscape; information on the formation of igneous and metamorphic rocks through field and laboratory studies (petrology); data for maps and reports describing Canada's bedrock features; data on Canada's surface deposits for land use planning, construction engineering, environmental management and regional development; data, technology and expertise needed for the safe and effective use of terrain; and research on soil stability, transportation corridors, waste disposal, pipelines and landslides. Inquiries: Ottawa/Hull (613) 995-4089.

EMR 86

Geophysical surveys: geophysical surveys are carried out from aircraft to prepare maps useful for mineral exploration. Geological Survey of Canada. Inquiries: Ottawa/Hull (613) 995-4270.

EMR 87

Geosciences/exploration and development information: the National GEOSCAN Centre co-ordinates the identification and indexing of publicly-available Canadian geoscience documents for input into the GEOSCAN bibliographic data base. The 65 000 records in GEOSCAN represent the co-operative efforts of ten federal and provincial geoscience agencies. Public documents of the Geological Survey of Canada and the Earth Physics Branch are included. National GEOSCAN Centre, Geological Survey of Canada. Inquiries: Ottawa/Hull (613) 992-9550; search requests (613) 995-4142.

EMR 88

Land subdivision system/federal: the Legal Surveys Division is responsible for the procedures used to subdivide and designate Canadian lands for right-granting purposes. Legal Surveys Division, Surveys and Mapping. Inquiries: Ottawa/Hull (613) 995-4705.

EMR 89

Land survey records/federal: the Surveyor General of Canada has custody of survey records and documents of Indian reserves, national parks and territorial and offshore lands. Copies of these records are available to the public. Legal Surveys Division, Surveys and Mapping. Inquiries: Ottawa/Hull (613) 995-4495.

EMR 90

Land surveys/federal: the Legal Surveys Division carries out surveys of Indian reserves, national parks and territorial and offshore lands to establish rights for oil, gas, minerals, surface rights, fee-simple ownership, leases and rights-of-way. Legal Surveys Division, Surveys and Mapping. Inquiries: Ottawa/Hull (613) 995-4341.

EMR 91

Library services: six libraries provide bibliographic and computer-based information services to EMR personnel, other federal departments, academic and research institutions and the general public. The collections include 8000 journals, half a million bound volumes, as well as scientific reports, maps, pictures and other information formats. Inquiries: Ottawa/Hull CANMET 995-4132; Earth Physics 995-5558; Geological Survey 995-4151; Remote Sensing 995-1210; Surveys and Mapping 995-4071; Mineral and Energy Sectors 995-9466.

EMR 92

Mapping/control survey markers: the Geodetic Survey establishes and maintains a network of control survey markers to provide precise geographical location points for use in mapping Crown and territorial lands. Geodetic Survey Division, Surveys and Mapping Branch. Inquiries: Ottawa/Hull (613) 995-4421.

EMR 93

Maps/authorization to use: authorization to reproduce topographical and geographical maps is given by the Assistant Director (Plans), Surveys and Mapping Branch. Inquiries: Ottawa/Hull (613) 995-4776.

EMR 94

Maps/mail orders: written orders and inquiries concerning topographic, geographical, departmental and general purpose maps of Canada, charts, and publications may be addressed to the Canada Map Office, 615 Booth Street, Ottawa, Ontario K1A 0E9. Prepayment is required unless an active account has been established. Inquiries: Ottawa/Hull (613) 995-4510.

EMR 95

Maps/over-the-counter sales: departmental maps, charts and publications are sold on an over-the-counter cash sales basis by Canada Map Office agents in major population centres, and in Ottawa at the EMR Counter Sales Office at 580 Booth Street. Inquiries: Ottawa/Hull (613) 998-3865.

EMR 96

Maps/reproduction and distribution: reproductions from topographical and geographical maps may be purchased. Reproduction and Distribution Division, Surveys and Mapping Branch. Inquiries: Ottawa/Hull (613) 995-4646.

EMR 97

Rock and mineral sets: representative collections of Canadian rocks and minerals are for sale to the general public. Geological Survey of Canada. Inquiries: Ottawa/Hull (613) 995-4342.

Energy, Mines and Resources Canada (Continued)**Research and technology (EMR 98-102)****EMR 98**

Energy research and development: the Office of Energy Research and Development is responsible for policy, strategy and administration for an interdepartmental program covering research and development (R&D) in conservation, new liquid fuels, renewable energy, nuclear energy, coal, heavy oils, oil and gas, and electricity. Its priorities for new research and development are: (1) alternatives to gasoline in the transportation sector; (2) increased efficiency of energy use in all sectors; (3) new energy sources, ranging from coal to hydrogen, as directed by the National Energy Program. Resources for research and development projects, under the interdepartmental program, are allotted by EMR on the recommendation of the Interdepartmental Panel on Energy R&D to participating federal research organizations. They, in turn, contract out much of the work to Canadian private sector R&D performers through cost-shared programs with the private sector, such as the Industry Energy Research and Development Program and through grants, contributions and contracts. Inquiries: Ottawa/Hull (613) 992-9575.

EMR 99

Remote sensing: the Canada Centre for Remote Sensing (CCRS) is responsible for the acquisition and analysis of remote sensing data from aircraft and satellites to assist in the development of effective information and management systems for Canada's land and ocean resources and environment. The Centre is the nucleus of a national program involving federal and provincial government departments, industry and universities. Canada Centre for Remote Sensing. Inquiries: Ottawa/Hull (613) 995-1210; Airborne Data Acquisition Services, (613) 998-3101.

EMR 100

Research Agreements Program: grants are awarded to Canadian research institutions not directly managed by the federal government, in support of proposals in engineering and the natural, physical and social sciences. External Research Program. Inquiries: Ottawa/Hull (613) 995-3081.

EMR 101

Research and development/energy transportation: research is conducted into methods and materials for energy transportation, including coal slurries, liquid natural gas and pipeline materials. Technology Information Division, CANMET. Inquiries: Ottawa/Hull (613) 995-4075.

EMR 102

Research and development services/minerals and energy: the Canada Centre for Mineral and Energy Technology (CANMET) conducts, sponsors and contracts out work for applied research and development on mineral, metal and fossil fuel technology, reflecting national and regional needs, and complementing research by the private sector. The technical knowledge base is disseminated by research staff and information specialists. Laboratory facilities are also utilized in carrying out research projects for industry on a full or partial cost-recovery basis. Some of the continuing studies include those relating to: coal and mineral resource assessment, mining technology, and the health and safety of miners; fuel combustion and energy conservation technology; health, safety and pollution control in the mineral industries; improved recovery from oil sands and heavy oil; explosives testing; improved quality of mineral-based materials; nuclear and mineral waste disposal; development of standards and specifications for improved recovery from low-grade ores; and chemical analysis. Technology Information Division. Inquiries: Ottawa/Hull (613) 995-4029.

Minerals (EMR 103-116)**EMR 103**

Minerals/commodity-specific information, consultative service: information on mineral commodities based on domestic and foreign sources (producers, suppliers, markets, quotas and prices) is provided. Non-confidential files may be viewed on the premises. Industrial Minerals Division, Mineral Policy Sector. Inquiries: Ottawa/Hull (613) 995-9466; industrial minerals, ext 215; non-ferrous, ext 286; ferrous, ext 207.

EMR 104

Mineral industry and outlook/consultative service: the Mineral Policy Sector produces annual forecasts of industry-wide production, investment, employment, exports and imports in aid of corporations in Canada and program planning. Policy Planning and Co-ordination Division, Mineral Policy Sector. Inquiries: Ottawa/Hull (613) 995-9466 ext 268.

Energy, Mines and Resources Canada (Continued)**EMR 105**

Mineral inventory/consultative service: the National Mineral Inventory Division maintains records of known mineral deposits and occurrences (excluding petroleum and natural gas) throughout Canada. Some 19 000 records have been completed to date. Each record contains narrative-form summaries on the history of exploration and development, history of production, if any, and geological description of deposit; details on location, map references and bibliography are included. A computerized index/data file (MINSYS) to the Canadian mineral occurrence records is maintained. The Division also maintains current Canadian resource (reserve/production) data by deposit, and occasionally publishes compilations on mineral occurrences and resources. Records are available to the public on a fixed-fee-per-unit basis and on a cost, recovery basis for computer files. National Mineral Inventory Division. Inquiries: Ottawa/Hull (613) 995-9466.

EMR 106

Mineral Processing Technology: CANMET develops and promotes technology so as to increase the recovery value of known Canadian mineral deposits. Technology Information Division, CANMET. Inquiries: Ottawa/Hull 995-4039 or 995-4029.

EMR 107

Mineral resources conservation: current information is available on conservation measures applicable to the mineral industry and on recommended actions that government, industry and the public can take to conserve mineral resources. Technology Information Division, CANMET. Inquiries: Ottawa/Hull (613) 995-4029 or 995-4039.

EMR 108

Mineral resources/deposits/inventory and classification: CANMET studies the characteristics and probable location of mineral resources and records, and classifies mineral deposits available to Canada. Technology Information Division, CANMET. Inquiries: Ottawa/Hull (613) 995-4029 or 995-4039.

EMR 109

Mineral statistics: a consultative service is offered on mineral statistical problems, data collection, availability and interpretation. Statistics are compiled on mineral exploration expenditures, value of production, inventories, shipments, production of refined minerals and metal, minerals and metal prices, operating costs, trade by country, consumption by end use, employment and wages. Information Systems Division, Mineral Policy Sector. Inquiries: Ottawa/Hull (613) 995-9466 ext 267.

EMR 110

Mineral supply/resources and reserves/consultative service: information is provided on resource concepts, classification and terminology, reserves and additional resources, the magnitude and effectiveness of mineral exploration in Canada, and long-range mine supply capability and ocean mining. Resource Policy Division, Mineral Policy Sector. Inquiries: Ottawa/Hull (613) 995-9466 ext 216.

EMR 111

Mineral technology/economic evaluation and application/consultative service: the Mineral Policy Sector maintains an intelligence base on mineral processing technology in use in domestic and foreign development, to aid in cost-benefit studies and in mineral forecasting. Policy Planning and Co-ordination Division, Mineral Policy Sector. Inquiries: Ottawa/Hull (613) 995-9466 ext 268.

EMR 112

Mineral trade/consultative service: an information service is offered on foreign interests competing with Canadian mineral producers, foreign investment opportunities for Canadian firms, and foreign policies on mineral trade. International Minerals Division, Mineral Policy Sector. Inquiries: Ottawa/Hull (613) 995-9466 ext 280.

EMR 113

Mineral transportation/consultative service: the Mineral Policy Sector conducts research on domestic and foreign mineral transportation costs and modes to help in policy development and mineral forecasting. Regional Mineral Relations, Mineral Policy Sector. Inquiries: Ottawa/Hull (613) 995-9466 ext 266.

EMR 114

Mineral products/transportation technology: CANMET is responsible for the development and promotion of technology to increase efficiency in the transportation of minerals and mineral products. Technology Information Division, CANMET. Inquiries: Ottawa/Hull (613) 995-4029.

EMR 115

Mining corporations: a reference and information service is offered on corporations having interests in the mining, exploration, development and production of minerals. Natural Mineral Inventory, Mineral Policy Sector. Inquiries: Ottawa/Hull (613) 995-9466 ext 237.

EMR 116

Mining industry/health and safety conditions: CANMET is responsible for improvement of the safety, health and environmental conditions of the mining and extraction industries. Technology Information Division, CANMET. Inquiries: Ottawa/Hull (613) 995-4029 or 995-4064.

Environment Canada (EC)

Head Office
Terrasses de la Chaudière
10 Wellington Street
Hull, Québec
(Mail: Ottawa, Ontario K1A 0H3)

Regional Offices: see individual branches below.

Other offices (including weather offices and national parks): throughout Canada.

Information: Ottawa/Hull (819) 997-2800; regional offices, see Part II under cities listed under specific branches below; other offices and national parks, see Part II under nearest town.

Responsibilities of the Department include the management and protection of forest resources and migratory birds, the provision of weather information, and the protection and enhancement of the quality of the natural environment, including water, soil and air.

Atmospheric Environment Service (EC 1-7)

Headquarters
4905 Dufferin Street
Toronto, Ontario
M3H 5T4

EC 1

Regional Offices: Vancouver (BC), Edmonton, Winnipeg, Toronto, Montréal (Saint-Laurent, Qué), Bedford (NS).

Information: Toronto (416) 667-4551.

Atmospheric conditions: weather observations, forecasts, warnings, consultation and advice are provided 24 hours a day for the general public and those people involved in aviation, shipping, agriculture and forest protection. Marine weather forecasts, warnings and observations are provided for Canadian waterways and the adjacent waters of the Atlantic, Arctic and Pacific oceans. The services of a port meteorological officer are available at the larger ports in Canada. **Inquiries:** nearest weather office, see Part II.

EC 2

Climate applications: the Canadian Climate Centre is responsible for analysis and interpretation of climatic data; for assessment of the impact of climate on national concerns such as agricultural production, industrial design, Arctic development and transportation, wind and solar energy, recreation and tourism; and for the provision of information and consultation services to those concerned with policy, planning and design, forest management and human health. **Inquiries:** Toronto (Downsview) (416) 667-4614.

EC 3

Climate services: the Canadian Climate Centre makes available climatological data (in the form of publications, statistical abstracts, microfilm, digital data or custom computer analysis) to the general public and to specialized users, such as engineers, lawyers and architects. **Inquiries:** Toronto (Downsview): computer products, (416) 667-4953; publications, (416) 667-4614.

EC 4

Climate research: the Canadian Climate Centre provides atmospheric circulation statistics and diagnoses, and carries out research on climate modelling, carbon dioxide impacts, climate sensitivity, climatic trends, climatic variability, climate monitoring, general circulation modelling, energy budget studies, radiative-photochemical models, thermodynamic models and statistical long-range prediction. Canadian Climate Centre. **Inquiries:** Toronto (Downsview) (416) 667-4924.

EC 5

Hydrometeorological and marine applications of climate information: the Canadian Climate Centre provides products and analyses that are specially tailored to aid in the design and/or operation of water supply, flood control and other hydrological structures and systems. Rainfall, snowfall, snowmelt and evaporation are among the subjects receiving special attention. Advice, consultation and specialized analyses of a climatological nature concerning the winds and weather over, and sea-state (as indicated by wave heights, water temperature, and so on) of Canadian lakes and ocean areas are provided to the general public and to the transportation, fishing, hydrocarbon and marine or coastal engineering industries. Canadian Climate Centre. **Inquiries:** Toronto (Downsview) (416) 667-4617.

EC 6

Ice condition forecasts: information is provided on moving ice in navigable waters for those involved in marine transportation, fisheries, offshore drilling, etc. **Inquiries:** Ottawa/Hull (819) 996-5236.

Environment Canada (Continued)**EC 7**

Meteorological and atmospheric research: the Atmospheric Environment Service carries out atmospheric and meteorological research. Its work includes research on LRTAP (Long Range Transport of Air Pollutants), acid rain, weather, ice, the effect of wind on waves, forecasting systems, the ozone layer, atmospheric radiation, numerical weather prediction (NWP), the physics of clouds and precipitation, weather radar, weather and environmental satellite data reception and processing, atmospheric chemistry, air quality, atmospheric contaminants, man-made pollutants, wind and solar energy, the environmental (atmospheric-related) aspects of northern and offshore hydrocarbon development, agro/forest/aeronautical/meteorology, meso-scale/boundary-layer meteorology and atmospheric dispersion. Inquiries: Toronto (Downsview) (416) 667-4551.

Canadian Forestry Service (EC 8-10)

Place Vincent Massey
351 St Joseph Boulevard
Hull, Québec
(Mail: Ottawa, Ontario K1A 1G5)

Regional Offices: Victoria, Edmonton,
Sault Ste Marie (Ont), Chalk River (Ont),
Québec (Sainte-Foy), Fredericton, St John's.

Information: Ottawa/Hull (819) 997-9580 or 997-2800,
or any regional office, see Part II under cities listed
above.

EC 8

Forest biomass research: the Canadian Forestry Service carries out research into the feasibility and technology of using forest biomass for energy.

EC 9

Forest protection: the Canadian Forestry Service develops methods to prevent or reduce damage caused by fire, insects and disease.

EC 10

National forestry statistics: the Canadian Forestry Service, with the co-operation of the provinces, compiles and publishes on a regular basis national inventories of forest data.

Canadian Wildlife Service (EC 11-15)

Place Vincent Massey
351 St Joseph Boulevard
Hull, Québec
(Mail: Ottawa, Ontario K1A 0E7)

Regional Offices: Delta (BC), Edmonton, Ottawa,
Québec (Sainte-Foy), Sackville (NB).

Information: Ottawa/Hull (819) 997-1095 or any
regional office, see Part II under cities listed above.

EC 11

Endangered species: the Canadian Wildlife Service carries out research and provides management advice on rare and endangered species and their habitats. Inquiries: Ottawa/Hull (819) 997-1095. The Service also issues permits for the importation and exportation of endangered plant and animal species. Inquiries: Ottawa/Hull (819) 997-1840.

EC 12

Habitat management/ecological assessment: the Canadian Wildlife Service acquires and manages habitats to ensure the preservation of wildlife in Canada, and to enable its staff to carry out research, conservation and interpretation. Research results and advice on the ecology of wildlife other than migratory birds are provided by the Canadian Wildlife Service. Inquiries: Ottawa/Hull (819) 997-1095 or any regional office, see Part II under cities listed above.

EC 13

Hunting regulations for migratory game birds: the Canadian Wildlife Service sets regulations governing the hunting, handling and use of migratory game birds. Inquiries: any regional office, see Part II under cities listed above.

EC 14

Migratory birds/conservation: the Canadian Wildlife Service is responsible for the protection and management of migratory birds. It carries out research and surveys on the distribution, status, population dynamics and ecological requirements of migratory birds. Inquiries: Ottawa/Hull (819) 997-2957.

EC 15

Wildlife interpretation programs: the Canadian Wildlife Service operates five centres to enable the general public to interpret the land and its wildlife. These centres are located at Creston (BC); Webb (Sask); Midland (Ont); Cap-Tourmente (Qué); and Percé (Qué). Inquiries: any regional office, see Part II under cities listed above.

Environment Canada (Continued)**Environmental Protection Service (EC 16-23)**

Place Vincent Massey
351 St Joseph Boulevard
Hull, Québec
(Mail: Ottawa, Ontario K1A 1C8)

Regional Offices: Vancouver (BC), Edmonton, Toronto,
Montréal (Qué), Dartmouth (NS).

Information: Ottawa/Hull (819) 997-0310 or any
regional office, see Part II under cities listed above.

EC 16

Air pollution control: the Environmental Protection Service deals with acid rain, the long range transport of airborne pollution, oxidant pollution, toxic substances in the atmosphere, energy/environmental concerns and vehicle pollution. A surveillance network monitors ambient air and air contaminants. The resultant data forms the basis for developing and prescribing objectives for ambient air quality, emission guidelines for industrial sectors, and regulations for specific pollutants. Inquiries: Ottawa/Hull (819) 997-1647.

EC 17

Environmental contaminants control: EPS lists and controls the amounts, sources, uses, losses and suppliers of chemical compounds identified as contaminants. The Service also predicts the potential hazards of new compounds and thus determines the need for production control. Inquiries: Ottawa/Hull (819) 997-1499.

EC 18

Environmental emergencies: EPS proposes measures to prevent environmental emergency situations associated with oil and toxic chemical spills, develops contingency plans to control those spills that do occur, and provides on-the-scene advice. It maintains the National Alerting and Reporting Network to respond quickly to emergencies, supports the improvement of countermeasures, and distributes technical information. Inquiries: Ottawa/Hull (819) 997-2037.

EC 19

Federal activities assessment: EPS assesses the environmental impact of federal activities, including energy projects, nuclear plants, pipelines, mining projects, federal ports and harbours, federal funding programs and activities on federal lands. It provides scientific and technical advice and recommends measures to prevent and/or minimize the environmental impact of such activities. Inquiries: Ottawa/Hull (819) 997-1831.

EC 20

Socio-economic impact analysis: socio-economic impact analyses of new health, safety and fairness regulations are conducted by EPS to improve the allocation of resources and information to decision-makers and to provide for increased public participation in the regulation-making process. Inquiries: Ottawa/Hull (819) 994-2878.

EC 21

Toxic chemicals management: EPS administers this departmental program to prevent or control entry of harmful quantities of toxic chemicals into the components of the environment—air, water, land, plant and animal life, and man. Inquiries: Ottawa/Hull (819) 994-0706.

EC 22

Waste management: EPS is responsible for reducing the adverse environmental effects of hazardous and non-hazardous waste and for encouraging resource and energy conservation. Inquiries: Ottawa/Hull (819) 997-1538.

EC 23

Water pollution control: EPS works with provinces to preserve, restore and enhance the aquatic environment and achieve water quality that is safe for human consumption and suitable to support aquatic life. The current focus is on the identification, characterization and control of toxic substances in wastewater discharges. The development, demonstration and transfer of new and improved technologies is one aspect of the Service's work. EPS administers the Ocean Dumping Control Act (by issuing permits to control dumping); controls the phosphorus content of laundry detergents under the Canada Water Act; approves designs for marine sanitation devices; and develops training programs for treatment plant operators. Inquiries: Ottawa/Hull (819) 994-2494.

Federal Environmental Assessment Review Office (EC 24)

Fontaine Building, 13th Floor
200 Sacré Coeur Boulevard
Hull, Québec
(Mail: Ottawa, Ontario K1A 0H3)

Regional Office: Vancouver (BC).

Information: Ottawa/Hull (819) 997-2725 or
Vancouver (BC) (604) 544-2431.

EC 24

Environmental assessment and review: the Federal Environmental Assessment Review Office carries out a program to ensure that environmental effects are taken into account early in the planning of projects that require federal money or property.

Environment Canada (Continued)**Inland Waters Directorate (EC 25-29)**

Place Vincent Massey
351 St Joseph Boulevard
Hull, Québec
(Mail: Ottawa, Ontario K1A 0E7)

Regional Offices: Vancouver (BC), Regina,
Burlington (Ont), Québec (Sainte-Foy), Dartmouth (NS).

Information: Ottawa/Hull (819) 997-6555 or any
regional office, see Part II under cities listed above.

EC 25

Flood control through mapping: the Inland Waters Directorate reduces the potential for future flood damage and subsequent federal compensation through a federal-provincial program of mapping and publicizing designated flood risk areas, and through the control of governmental expenditures in such areas.

EC 26

Water management data: the Inland Waters Directorate plans and implements freshwater management programs. For selected watersheds, it prepares hydrological forecasts and carries out a systematic collection and compilation of data (on streamflow, water levels, sediment, water quality, groundwater, snow and ice, glaciers and water use) for the management of inland waters.

EC 27

Water management flood damage reduction: the Inland Waters Directorate, in co-operation with the provinces, protects existing development from flooding through the construction of dykes and dams in those areas where the benefits of flood protection exceed the costs and where there is a major national concern.

EC 28

Water management/research: the Inland Waters Directorate undertakes freshwater research and technology development programs, and provides for additional research and development by contract. The Directorate also provides funding for research on water-related issues carried out by non-federal agencies.

EC 29

Water resources/river basin management: in co-operation with the provinces, the Inland Waters Directorate plans and implements measures for the conservation, development and utilization of water resources in river basins in which there is a national interest.

Lands Directorate (EC 30-32)

Place Vincent Massey, 20th Floor
351 St Joseph Boulevard
Hull, Québec
(Mail: Ottawa, Ontario K1A 0E7)

Regional Offices: Vancouver (BC), Burlington (Ont),
Québec (Sainte-Foy), Dartmouth (NS).

Information: Ottawa/Hull (819) 997-1246 or any
regional office, see Part II under cities listed above.

EC 30

Land use policy development and co-ordination: the Lands Directorate is responsible for the co-ordination and implementation of the federal policy on land use. It also represents Environment Canada on the Treasury Board Advisory Committee on Federal Land Management, advising on the implementation of the Federal Land Management Principle.

EC 31

Land use research and planning: the Lands Directorate conducts research into major national and regional land problems to inform the public and decision-makers of their causes, solutions and importance to the nation. Programs to analyse the loss of agricultural land, the preservation of special resource lands, and federal involvement in the solution of land use problems are undertaken. Examples of current initiatives are analysis of the stress on the land resource, analysis of planning measures and their effectiveness across Canada, analysis of the abandonment of marginal lands, the rehabilitation of mining sites, and evaluation of the impact of federal programs on the nation's fruitland resource. This program also provides land planning assistance to the Environmental Assessment and Review Process (EARP) and to specific jurisdictions in solving land problems (Fraser Estuary Studies, Wetland Studies).

EC 32

Publications and maps: the Lands Directorate produces and distributes public information materials (such as the *Canada Land Inventory*, the *LAND* newsletter, brochures, books, reports and maps) which relate to the land and its use. Inquiries: Ottawa/Hull (819) 997-2010.

Environment Canada (Continued)**Parks Canada (EC 33-36)**

Head Office
Terrasses de la Chaudière

EC 33

Co-operating associations: Parks Canada is seeking the
co-operation of non-profit organizations in the
promotion of its objectives through such ventures as the
sale of heritage items and the provision of additional
public services such as courses and field trips. Inquiries:
Ottawa/Hull (819) 994-2696.

EC 34

Heritage canals: Parks Canada is responsible for the
operation and interpretation of historic canal systems
in Canada. Inquiries: nearest regional office, see Part
II under cities listed above or canal offices, see Part II
under Sault Ste Marie (Ont), Peterborough (Ont), Smiths
Falls (Ont), Chambly (Qué), and St Peters (NS).

EC 35

Historic parks and sites: Parks Canada is responsible for
the preservation, restoration and interpretation of sites
and structures of national historical importance
throughout Canada. Admission is free to all national

Export Development Corporation (EDC)

Head Office
110 O'Connor Street
(PO Box 655)
Ottawa, Ontario
K1P 5T9

Regional Offices: Vancouver (BC), Toronto,
Montréal (Qué), Halifax.

Information: Ottawa/Hull (613) 237-2570; regional or
other offices, see Part II under cities listed above; for
client information, see toll-free numbers listing on
page 16.

The Corporation operates on a commercial basis to help
Canadian exporters (who are competitive in terms of
price, quality and delivery of service) meet normal
commercial credit competition in world markets.

EDC 1

Financing (medium- and long-term to foreign buyers):
the Corporation facilitates medium- and long-term
export financing to foreign buyers of Canadian capital
goods and services. Funds are provided either directly
to Canadian suppliers on behalf of the foreign borrower
or by a service called forfaiting, which is the purchase
of credit notes payable to the Canadian suppliers. (This
service, in effect, provides the exporters with cash
sales.) The Corporation also guarantees loans by banks
and financial institutions to foreign buyers in support of
Canadian exports.

EDC 2

Guarantees (performance and bid security): the
Corporation provides 100 per cent unconditional
guarantees to banks that provide performance and bid
related securities in the form of an irrevocable letter
of credit issued to a foreign buyer on behalf of a
Canadian exporter.

EDC 3

Guarantees (supplier and buyer credit): the Corporation
issues 100 per cent unconditional guarantees to banks
and other lenders who provide non-recourse financing in
respect of an EDC-insured sale of capital goods
(supplier credit), or who make loans to buyers of
Canadian capital goods and services (buyer credit).

Export Development Corporation (Continued)**EDC 4**

Insurance (assignment of exporter's rights and obligations): while the Export Development Corporation will normally agree to pay any proceeds payable under an exporter's policy to a bank or other financial organization in order to facilitate the exporter's banking arrangements, if a bank or other financial institution agrees to purchase an insured foreign receivable from the exporter, EDC is prepared to agree to the assignment of the exporter's rights and obligations under the policy to the bank or financial institution.

EDC 5

Insurance (consortium): Export Development Corporation insurance is available to cover individual members of an exporting consortium against a call on a performance security due to the failure of one or more other members of the consortium to perform.

EDC 6

Insurance (export credit): Export Development Corporation credit insurance is available to cover nonpayment by foreign buyers due to commercial or political events beyond the control of the seller or buyer (insolvency, default, cancellation of import or export licenses, foreign exchange blockages, etc.). In certain instances, cover for political risk only can be issued.

EDC 7

Insurance (foreign investment): Export Development Corporation insurance is available to cover Canadian foreign investments against three broad political risks: inconvertibility of or the inability to repatriate capital and earnings, expropriation, and war or revolution.

EDC 8

Insurance (performance security): Export Development Corporation insurance is available to cover an exporter against a wrongful call of a performance security, the security being in the form of an irrevocable letter of credit provided by the exporter's bank in favour of the buyer.

EDC 9

Insurance (predisbursement): Export Development Corporation insurance is available to cover the failure of a buyer/borrower to authorize EDC to disburse loan funds in payment for goods produced or services rendered.

EDC 10

Insurance (surety bonds): Export Development Corporation insurance is available to cover a portion of the risk assumed by a domestic surety company providing a performance bond to a foreign buyer.

The Federal Business Development Bank assists in the
establishment and development of business enterprises
in Canada by providing them with financial and
management services.

FBD8 1

Assistance to business: the FBDB extends financial
assistance to almost every type of new or existing
Canadian business that does not have other sources of
financing available to it on reasonable terms and
conditions. Loans, loan guarantees, interim financing,
equity financing or any combination of these in
whatever manner best suits the particular needs of the
business are made available. Particular attention is
given to smaller organizations.

FBD8 2

CASE (Counselling Assistance to Small Enterprises):
FBDB's counselling program, CASE, utilizes the
expertise of more than 2000 retired business people to
assist small firms in improving their methods of doing
business. For a nominal fee, experienced counsellors
provide advice in all areas of business management
including accounting, marketing, production and
personnel. It is not necessary to be a borrower from
FBDB to obtain CASE services. Inquiries: CASE offices,
see Part II under nearest town or see toll-free numbers
listing on page 17.

HWC 1

Food safety/nutritional quality/food standards/micro-
bial quality: the Food Directorate conducts programs to
ensure the safety and nutritional value of food. These
include the development of legal standards to ensure
food safety, involving research evaluation of chemicals
and food additives as well as related factors in foods;
the study of microbial hazards in the food supply,
including the development of methodology to determine
the type and extent of micro-organisms and extraneous
matter in foods; the evaluation of the significance of
contamination and the setting of standards for micro-
bial quality of foods; and the setting of regulations
concerning the nutritional qualities of foods. Inquiries: Ottawa/t-toll (613) 992-8304.

HWC 2

Environmental quality and health hazards: the Envi-
ronmental Health Directorate is engaged in a range of
programs that collectively serve to identify, assess and
reduce health hazards in the environment, in consumer
products and in medical devices. The Directorate serves
to protect Canadians from health hazards associated
with the physical, chemical and technological aspects
of natural and man-made environments. The Direc-
torate's work focuses on the following program areas:
product safety; drinking water; environmental criteria;
predictive toxicology; occupational toxicology;
environmental radioactivity; X-rays; non-ionizing
radiation; radiation dosimetry and occupational
monitoring; radiopharmaceuticals; internal dosimetry;

Disease identification/health surveillance: the Labora-
tory Centre for Disease Control is responsible for the
assessment of the health status of Canadians, disease
surveillance, and epidemiological investigations. In
collaboration with provincial health departments, it
assists in epidemic investigation and control. National
reference laboratory services are maintained for the
identification of infectious disease agents, and the
maintenance of reference methods and materials in
clinical chemistry. Programs on hospital-acquired
infection and laboratory biosafety are in operation.
The Centre also reviews and distributes information on
hazardous substances and adverse drug reactions and
provides advice to poison control centres across
Canada. Inquiries: Ottawa/t-toll (613) 992-6385.

HWC 5

Consumer complaints: the Health Protection Branch
investigates consumer complaints concerning food,
drugs, cosmetics and medical devices that involve
illness, injury, spoilage or ineffectiveness. It also
provides information on foods, drugs, cosmetics,
medical and radiation emitting devices to ensure their
safe use by consumers. Inquiries: Ottawa/t-toll (613)

Canada Pension Plan: this is a contributory social insurance program to provide protection against the contingencies of retirement, disability, death and divorce. The plan provides for an earnings-related retirement pension payable as early as age 65. Monthly pensions are payable to disabled contributors and dependent children. Death benefits are paid in a lump sum following the death of a qualified contributor, and survivors' benefits are payable to the contributor's estate in the form of a monthly pension for the surviving spouse and monthly benefits for dependent children. In the case of marriage separation by divorce or legal annulment, pension credits earned by one or both spouses during their married years may be divided equally between them. Contributions made to the social insurance program of another country with which Canada has signed an agreement on social security may be used to meet the qualifying period for a Canada Pension Plan benefit. The plan operates in all parts of Canada, except in the province of Québec where there is a closely co-ordinated social insurance counterpart. Inquiries: Canada Pension Plan Head Office, Ottawa/Hull (613) 993-9760 or regional offices, see Part II under provincial capitals; in the eastern portion of Area Code 418, see toll-free numbers listing on page 18.

Information: Ottawa/Hull (819) 997-2617; regional
offices, see Part II under cities listed above; district
and field offices, see Part II under nearest town.

The Department's aims are to promote better industrial relations: by maintaining a balanced legislative framework for industrial relations in the federal jurisdiction; by providing assistance to parties in overcoming industrial relations problems; by providing appropriate standards of wages, conditions of employment and occupational safety and health; by the provision of non-legislative programs designed to achieve understanding and co-operation in the industrial relations sphere; and by maintaining and strengthening the Canadian contribution to the improvement of labour conditions throughout the world.

LC 1

Arbitration: the Department appoints arbitrators and adjudicators in grievance disputes and maintains an arbitral award indexing and retrieval system for the public.

LC 2

Employment conditions: the Department is responsible for enforcement of standards governing conditions of work, including the minimum wage, maternity leave bereavement leave and paid holidays. It also provides advice regarding compliance in enterprises subject to the Canada Labour Code, Part III.

LC 3

Grants/labour education: financial assistance is available to unions in Canada for educational programs that would enable members to perform their responsibilities more effectively.

LC 4

Industrial Relations Information Service: this is a "one-stop" information service designed especially for individuals and organizations involved in collective bargaining and labour relations. Inquiries: Ottawa/Hull (819) 997-3117 (collect calls accepted).

LC 5

Labour disputes: the Department provides conciliation and mediation assistance in collective bargaining disputes in enterprises subject to the Canada Labour Code, Part V. Inquiries: Ottawa/Hull (819) 997-3292 or any Labour Canada Mediation and Conciliation Service field office, see Part II under nearest town.

LC 6

Labour laws: the Department reports on situations, trends and anomalies in labour legislation to provide a better basis of information for enacting and/or modifying labour laws.

LC 7

Organized labour data: policy and research data are available for public use on strikes, lockouts, wage rates, collective agreement expiry dates, and working conditions in Canada. Inquiries: Ottawa/Hull (819) 997-3117.

LC 8

Pre-retirement benefits: these are available for individuals of not less than 50 years of age who have been laid off by industries on the federal government's designation list, and who may not find manpower placement programs to be effective. (Benefits are paid through Canada employment and immigration centres, see Part II under nearest town.)

LC 9

Research/conditions of work: employee-employer collaboration and participation regarding working conditions, employment relations, and quality of working life are encouraged through the provision of information and funding for conferences, seminars, workshops and experiments.

LC 10

Research grants: university research grants are available for projects in the field of Canadian labour affairs.

LC 11

Safety and health standards: the Department is responsible for the enforcement of occupational safety and health standards (including accident prevention education) in enterprises subject to the Canada Labour Code, Part IV.

LC 12

Women in the work force: the Women's Bureau provides information and guidelines on equal opportunities and status of women in the work force.

LC 13

Workers' compensation: the Department is in charge of compensation for job-related injuries for federal government employees, merchant seamen and federal penitentiary inmates.

Library of Parliament (LP)

Parliament Buildings
Wellington Street
Ottawa, Ontario
K1A 0A9

Information: Ottawa/Hull (613) 995-7113.

The Library of Parliament is designated as a Department within the meaning and purpose of the Financial Administration Act. It is composed of four branches: the Information and Reference Branch; the Technical Services Branch; the Research Branch; and the Administration and Personnel Branch. The Parliamentary Librarian holds the rank of deputy minister. The direction and control of the Library is vested in the Speaker of the Senate and the Speaker of the House of Commons, assisted by a joint committee appointed by both Houses.

LP 1

Library services to parliamentarians: the Library of Parliament offers reference, research and circulation services to parliamentarians. Its collection of books, periodicals, official publications, videotapes, indexes and bibliographies is carefully chosen and organized to meet the information and research needs of its parliamentary clientele. In addition, the Library provides a clipping-file service. A booklet of selected press clippings is sent to each Senator and Member of Parliament either daily, when Parliament is in session, or weekly, during the adjournment period. Over 150 computerized data bases that provide factual or bibliographic information are also available. Research officers (including lawyers, economists, natural scientists and political scientists) prepare, on the request of parliamentary clientele, research studies, current issue briefs and background papers; they also offer consultant services.

LP 2

Legislative information: current legislative information is provided to parliamentarians and the public by means of a daily record of legislation in progress (*Status of Bills*) and by an index to current Senate committee proceedings and debates.

Livestock Feed Board of Canada (LFBC)

Head Office

Snowdon Station
Montréal, Québec
H3X 3T4

Regional Office: Surrey (BC).

Information: Montréal (Qué) (514) 283-7505; regional office, see Part II under Surrey (BC).

The Board's objectives are to ensure the availability of feed grain to meet the needs of livestock feeders, the availability of adequate storage space in eastern Canada, and stability in the price of feed grain in eastern Canada and British Columbia.

LFBC 1

Feed Freight Equalization Program: the Board administers subsidies related to feed grain transportation.

LFBC 2

Grain Storage Assistance Program: the Board provides assistance to feed mills in grain deficient areas of eastern Canada and British Columbia for the purpose of increasing grain inventories. The program provides assistance for a five-year period and will terminate on 31 March 1985.

LFBC 3

Inland Elevator Program: the Board will provide financial assistance for the construction of new inland elevators up until 31 March 1983. Financial aid for the expansion of storage capacity at existing elevators terminated on 31 March 1982.

LFBC 4

Publications: the Board publishes *Grain Facts*, a bi-weekly review of the feed grain market including a statistical section on prices, stocks and replacement values. The Board also publishes an annual report, and annual and semi-annual reviews of the domestic feed grain market.

LFBC 5

Supply and Price Stability Program: the Board assesses the requirements and storage space for feed grains and monitors matters related to the storage, handling, transportation and cost of feed grains.

Ministry of State for Science and Technology (MOSST)

Martel Building
270 Albert Street
Ottawa, Ontario
K1A 1A1

Information: Ottawa/t-toll (613) 995-3093.

The Ministry is responsible for three distinct policy areas. One policy area focuses on the support of science. This encompasses the acquisition of knowledge, the development of research capability, the provision of scientifically-trained manpower and the dissemination of scientific information. The other policy areas which concern the Ministry are the application of scientific and technological resources, and science in public policy.

MOSST 1

Employment in the manufacturing sector/industrial countries: the Ministry studies the changes in size and structure of employment in the manufacturing sector in Canada and five OECD (Organization for Economic Co-operation and Development) countries as well as the interaction between employment and productivity.

MOSST 2

Highly qualified manpower: the Ministry provides information on trends of university enrolment and of degrees awarded, requirements for engineering graduates up to the year 1985, and requirements for R&D personnel.

MOSST 3

Industrial research establishments: the Ministry provides information on the location, products, research and development facilities, activities and personnel of several thousand industrial research establishments classified under such sectors as manufacturing, transportation and communications.

MOSST 4

MOSST background papers: the Ministry periodically issues background papers dealing with the status of research and development in Canada, manufacturing firms, federal funding of university research, biotechnology, the transfer of technology from federal laboratories to industry, highly qualified manpower and the Canadian space program.

MOSST 5

Research and development in the manufacturing industry: the Ministry analyses Canadian and foreign-controlled firms performing research and development in the manufacturing sector.

**Ministry of State for Science and Technology
(Continued)**

MOSST 6

Scientific and technological activities/funding: the Ministry provides information on the scientific and technological activities to be funded by the federal government during the current fiscal year.

MOSST 7

Space activities: the Ministry is involved in space policy and the development and co-ordination of space activities among government departments and agencies. It chairs the Interdepartmental Committee on Space whose secretariat is located within MOSST. The Ministry issued the Canadian space program plan for 1981-82 to 1983-84, and for 1982-83 to 1984-85.

MOSST 8

Statistics: the Ministry provides annual statistical data on the federal government's science expenditures and personnel resources in the natural and human sciences.

MOSST 9

Technology transfer: the Ministry provides information on the interaction between federal laboratories and industry to foster the improvement of technological capability in Canadian industry.

MOSST 10

University research fundings: the Ministry provides information on different issues related to university research and the rationale for federal support of university research.

Publications (MOSST 11-14)

MOSST 11

Federal investment in science: the Ministry has issued a booklet giving an overview of the 1982-83 federal science expenditures proposed in the Main Estimates. The booklet, entitled *The Government of Canada's Investment in Science*, highlights Canada's progress towards the research and development target of 1.5 per cent of the GNP (Gross National Product) announced in 1981. Communications Services Division. Inquiries: Ottawa/Hull (613) 995-3093.

MOSST 12

Federal research and development policy: the Ministry has issued a planning framework outlining the basis for raising national research and development (R&D) expenditures in the natural sciences to 1.5 per cent of the Gross National Product by 1985. The framework is outlined in the document, *R & D Policies, Planning and Programming — January 1981*. Communications Series Division. Inquiries: Ottawa/Hull (613) 995-3093.

MOSST 13

Limited partnerships: the Ministry has issued a brochure, entitled *Limited Partnerships: Investment Opportunities for Financing R&D in Canada*, which explains how Canadians can use limited partnerships to take advantage of R&D tax incentives to invest in Canada's technological future. Communications Services Division. Inquiries: Ottawa/Hull (613) 995-3093.

MOSST 14

Science Notes: the Ministry provides, for the scientific community and the general public, an overview of science policy and the federal programs in Canada that result from this policy in its newsletter, *Science Notes*. The newsletter is published on a quarterly basis.

An objective of the Commission is to promote public use and enjoyment of the lands under its jurisdiction.

NCC 1

Bicycle paths: about 67 kilometres of bicycle paths are maintained by the NCC on federal land.

NCC 2

Camping: Camp LeBreton provides travellers with inexpensive accommodation within walking distance of Parliament Hill. Preference is given to cyclists and hikers, but travellers using other means of transportation are accommodated as space permits. The camp is open from mid-June to Labour Day.

NCC 3

Canada Canoe Festival: the festival presents exhibits, native dances, arts and crafts, campfires and canoe races during the last week in June and the first week in July. Most of the events take place at Victoria Island, on the Ottawa River between Ottawa and Hull.

NCC 4

Concerts: free concerts are held throughout the summer at the Astrolabe, an open-air theatre on Nepean Point in Ottawa.

NCC 5

Events: free outdoor events are presented by the NCC throughout the year at various locations. These include Winterlude (see NCC 17) and the Canada Canoe Festival (see NCC 3).

NCC 6

Facilities for public use: the public may use some federal lands and facilities for group social and recreational events, after acquiring permission from the NCC.

NCC 7

Films and photographs: audiovisual material and photographs to do with the national capital are available from the NCC Public Affairs Division.
Inquiries: Ottawa/Hull (613) 992-4231.

NCC 8

Gatineau Park: the NCC maintains Gatineau Park, an area of 36 200 hectares in size, on the Outaouais side of the National Capital Region. For summer activities there are 288 campsites in two different sectors within the park, several picnic areas, five supervised beaches, boat rentals, a 12-kilometre bicycle path and a fitness trail. A variety of educational programs are offered, and reservations may be made for group activities. For winter activities there are winter campgrounds, three snowshoeing trails, two toboggan runs and over 200 kilometres of ski trails.

NCC 9

Golf courses: two public golf courses are maintained by the NCC. One is located on Route 148, Aylmer, Québec; the other is on Highway 31 (Bank Street), Ottawa, Ontario.

NCC 10

Greenbelt: the NCC maintains the Greenbelt, which includes nature study areas with guided trail-walks, two nature centres surrounded by acres of forest, fields and ponds, a wildlife sanctuary, and a 40-hectare farm typical of those of 1875, which has been restored. Interpretive programs are available on-site.

NCC 11

Guided tours: the NCC offers group bus tours with free guide service.

NCC 12

Sculpture walks: approximately 100 sculptures in the core of the Capital Region form the Sculpture Walk.

NCC 13

Services for the disabled: the NCC provides areas with services and equipment specifically for the disabled, including the Sarasparilla Trail and Mulvihill Lake.

NCC 14

Skating rinks: the NCC maintains two public skating rinks, an artificial one at Place du Portage in Hull, and the Rideau Canal, which is the longest rink in the world (7.8 kilometres).

NCC 15

Ski trails: there are over 200 kilometres of groomed and patrolled ski trails in Gatineau Park, north of Hull, and about 60 kilometres in the Greenbelt, south of Ottawa. All the bicycle paths along the Ottawa River and the Rideau Canal become ski trails in the winter.

National Capital Commission (Continued)**NCC 16**

Visitors' Reception Centre: the Centre houses exhibits and provides information on events and places in the National Capital Region; it organizes free guided tours of the region during the summer, highlighting its heritage, architecture, urban development and major events. **Inquiries:** Ottawa/Hull (613) 992-5473.

NCC 17

Winterlude: the NCC sponsors Winterlude, ten days of sport and cultural activities concentrated mainly on the Rideau Canal in Ottawa.

Ottawa, Ontario
K1A 0M8

Information: Ottawa/Hull (613) 995-9832.

The National Museums of Canada has as its purpose to demonstrate the products of nature and the works of man, with special but not exclusive reference to Canada. Its policy supports activities that increase public access to the collections of Canadian museums and art galleries, and that lead to greater preservation of those collections. The NMC incorporates in a single administration Canada's four national museums in the capital as well as a series of national programs that serve the Canadian public directly as well as through hundreds of museums and related institutions across the country.

The Museums (NMC 1-4)**NMC 1**

National Gallery of Canada: the National Gallery's permanent collection numbers more than 36 000 works of art, including the most important collection of Canadian art in the world. The Gallery exhibits a constantly changing selection of paintings, sculptures, prints, drawings and photographs from its collection. It presents important exhibitions from other countries and circulates its own exhibitions throughout Canada and abroad. A varied program of lectures, films and guided tours is maintained for visitors. The Gallery also produces a wide range of publications. Inquiries: National Gallery of Canada, Elgin and Albert Streets, Ottawa, Ontario K1A 0M8 (613) 992-4636.

NMC 2

National Museum of Man: the National Museum of Man conducts research, collects and preserves artifacts, and disseminates information in the fields of Canadian archaeology, ethnology, folk culture, and social and military history. It issues scholarly and popular publications, organizes and sustains travelling exhibitions as well as permanent displays, produces educational resource materials in various media, and provides regional and visitor programs in its two display facilities. The Canadian War Museum is a division of the National Museum of Man. Inquiries: Victoria Memorial Museum Building, Metcalfe and McLeod Streets, Ottawa, Ontario K1A 0M8 (613) 992-3497; Canadian War Museum, 330 Sussex Drive, Ottawa, Ontario K1A 0M8 (613) 996-1420.

NMC 3

National Museum of Natural Sciences: the National Museum of Natural Sciences maintains collections and conducts research in the fields of botany, zoology, mineral sciences and palaeobiology. Its natural history displays are presented in seven permanent halls as well as in temporary and travelling exhibitions. Knowledge derived from the Museum's research and collections is made available through a variety of popular and scientific publications, educational programs, loans of specimens, films, workshops, conferences, and nature excursions. Inquiries: Victoria Memorial Museum Building, Metcalfe and McLeod Streets, Ottawa, Ontario K1A 0M8 (613) 996-3102.

NMC 4

National Museum of Science and Technology: the National Museum of Science and Technology collects and exhibits artifacts illustrating the discoveries of modern science and the developments of technology. Its collections are in the fields of general, industrial, agricultural and communications technology, astronomy, printing and aviation. The National Aviation Museum, containing nearly 100 aircraft, is part of the Museum of Science and Technology. The Museum's activities include permanent and temporary exhibitions, loans, air shows, steam train excursions and educational programs. Inquiries: 1867 St Laurent Blvd, Ottawa, Ontario K1A 0M8 (613) 998-4566; National Aviation Museum, Rockcliffe Air Base, Ottawa, Ontario K1A 0M8 (613) 993-2010.

National programs (NMC 5-9)**NMC 5**

Canadian Conservation Institute (CCI): the CCI provides specialized conservation services, research, training and information to protect heritage treasures in public collections. Its mobile laboratories visit museums in all parts of the country. Inquiries: Ottawa/Hull (613) 998-3721.

NMC 6

Canadian Heritage Information Network: this program assists museums in the development of automated and manual systems for the preservation and management of information about their collections, and provides a computerized mechanism for the sharing of that information. Over 150 institutions participate in the program, and the Network now contains data on more than two million objects. Inquiries: Ottawa/Hull (613) 996-8501.

National Museums of Canada (Continued)**NMC 7**

International Program: the International Program facilitates international exchanges of exhibitions to and from Canada and fosters interest in international museum activities. Inquiries: Ottawa/Hull (613) 995-2943.

NMC 8

Mobile Exhibits Program: the NMC's museumobiles travel to smaller communities in Canada that lack ready access to major museums. Their exhibits of artifacts and other illustrative materials depict the geographical, archaeological, natural and social history of various regions of the country. Inquiries: Ottawa/Hull (613) 998-3633.

NMC 9

Museum Assistance Programs: these programs provide financial and technical assistance to qualifying public museums, art galleries and other related institutions, to increase access to Canada's cultural heritage and to ensure the preservation of that heritage. Inquiries: Ottawa/Hull (613) 996-8504.

Publications (NMC 10)**NMC 10**

Publications: information on sale publications may be obtained from the NMC by writing or phoning: Marketing Services, National Museums of Canada, 300 Laurier Avenue West, Ottawa, Ontario K1A 0M8; (613) 593-4390. All four national museums produce a wide variety of free material that may be ordered directly from the individual museums.

National Parole Board (NPB)

Headquarters
Sir Wilfrid Laurier Building
340 Laurier Avenue West
Ottawa, Ontario
K1A 0R1

Regional Offices: Vancouver (Burnaby, BC),
Saskatoon (Sask.), Kingston (Ont.), Montréal (Qué.),
Moncton (NB).

Information: Ottawa/Hull (613) 992-2818; regional offices, see Part II under cities listed above.

The National Parole Board is an independent, administrative tribunal responsible for granting, denying or revoking parole for inmates of federal institutions and institutions in the Prairie and Atlantic provinces. It may also revoke mandatory supervision of federal inmates. The Board's work involves eligibility criteria for conditional release, hearings, conditions of release, implementation of procedural safeguards, and communications and consultations with the police and the Correctional Service of Canada.

NPB 1

Review of Parole Board decisions: the Internal Review Committee carries out internal re-examination of Parole Board decisions where parole was denied or revoked, or where mandatory supervision was revoked. Inquiries: Ottawa/Hull (613) 992-2818.

NPB 2

Temporary absences: the Board has authority over the granting of all unescorted temporary absences to inmates of federal institutions for medical, humanitarian or rehabilitative reasons.

NPB 3

Day parole: day parole is a limited form of parole designed to assist inmates to reintegrate into society on a gradual basis.

NPB 4

Pardon/federal offences: pardon may be granted under the Criminal Records Act to assist people who have been found guilty of a criminal offence and, having satisfied the sentence imposed, have subsequently shown that they are law-abiding citizens. The Clemency and Criminal Records Division of the Board determines the investigation required for each case, after which the Board submits a recommendation to the Solicitor General on whether a pardon should be granted. Inquiries: Ottawa/Hull (613) 593-5275.

National Research Council (NRC)

Head Office
Montréal Road
Ottawa, Ontario
K1A 0R6

Other offices: see below under individual programs.

Information: Ottawa/Hull (613) 993-9101.

The National Research Council's operational activities are organized under two distinct programs. Scientific and Industrial Research Programs encompass basic and exploratory research whose purpose is to acquire new knowledge and expertise and research long-term problems of national concern. Scientific and Technical Information Programs include those that involve the collection, storage and retrieval of scientific and technical information.

Energy research and development (NRC 1-8)**NRC 1**

Renewable energy: the Council ensures that the technology being developed for tapping renewable sources of energy is successful and that the results of this research are available to the public. Division of Energy Research and Development. Inquiries: Ottawa/Hull (613) 993-3405.

NRC 2

Conversion of organic wastes: the Council is working on the improvement of fermentation technologies for converting organic wastes into methane fuel. Division of Energy Research and Development. Inquiries: Ottawa/Hull (613) 993-1342.

NRC 3

Energy-efficient designs: the Council investigates energy-efficient designs in building and in transport. Inquiries: Ottawa/Hull (613) 993-1421 or 993-2095.

NRC 4

Fossil fuels: methods are being developed to clean coal by "spherical agglomeration." Inquiries: Ottawa/Hull (613) 993-2455.

NRC 5

Fusion energy: the Council is responsible for co-ordinating fusion energy research in a national program. The aim of such a program is to establish the necessary expertise in Canada to provide fusion reactors, if and when their feasibility is demonstrated. Division of Energy Research and Development. Inquiries: Ottawa/Hull (613) 993-0810.

NRC 6

Hydraulic and tidal energy: laboratory scale tests are conducted on conversion devices for wave, tidal and river flow energy systems. Analytic and modelling techniques for hydraulic energy systems of all types are used for some of the tests. Division of Energy Research and Development. Inquiries: Ottawa/Hull (613) 993-2417.

NRC 7

Solar energy: NRC laboratories are investigating topics on solar energy ranging from the quality and quantity of sunshine to how it can be stored or converted into electricity. Division of Energy Research and Development. Inquiries: Ottawa/Hull (613) 993-2730.

NRC 8

Wind energy: studies in wind energy are primarily concerned with megawatt-scale vertical axis wind turbine generators coupled to the existing electrical grid. Joint experiments with utility companies using 50 kW vertical axis wind turbine generators are providing data on the performance of these machines in remote communities in Canada and abroad. Division of Energy Research and Development. Inquiries: Ottawa/Hull (613) 993-3405.

NRC 9

Atlantic Research Laboratory: the Laboratory is responsible for fundamental research into most areas of the Atlantic region's economy (steelmaking, seaweed harvesting and farming). Inquiries: Halifax (902) 426-8332.

NRC 10

Biological sciences: scientists are studying the structures of biomolecules and how they relate to biological functions to broaden the knowledge in this field of modern medicine. Research is being carried out on antibiotics and other drugs, and on the nature of genes to ensure that certain kinds of genetic experiments with great medical and industrial potential can proceed safely. Food scientists are studying ways of extending the storage time of meats and vegetables, and are also researching a bacteria-mediated process that converts plant wastes into methane. Division of Biological Sciences. Inquiries: Ottawa/Hull (613) 992-5501.

NRC 11

Biomedical engineering: the Council conducts research in cardiovascular studies and ultrasonics as well as on aids to the handicapped, standards of rehabilitation, and rehabilitation technology. Division of Electrical Engineering. Inquiries: Ottawa/Hull (613) 993-0330.

National Research Council (Continued)**NRC 12**

Building codes: the Council provides technical support for the National Building Code for Canada, the National Fire Code for Canada, the Measures for Energy Conservation in New Buildings, Building Standards for the Handicapped, Residential Standards and the Canadian Plumbing Code. Division of Building Research. Inquiries: Ottawa/t-tull (613) 993-9960; other offices, see Part II under Halifax, Rogers Pass (BC), Saskatoon (Sask), Thompson (Man) or Vancouver (BC).

NRC 13

Canada Institute for Scientific and Technical Information: scientific and technical information is available upon request. Inquiries: Ottawa/t-tull (613) 993-1600.

NRC 14

Chemistry: programs include the study of methods for preserving materials and prolonging their lifetime of use, as well as the detection of materials and processes that may harm the environment. Equally important is the search for alternative sources of energy and for methods to use available resources more efficiently. These practical activities are supported by fundamental research designed to improve our understanding of nature in general and to extend our expertise in areas likely to gain prominence in the future. Inquiries: Ottawa/t-tull (613) 993-2330.

NRC 15

Computer technology: the Council carries out research in the development and application of computer technology (graphic display; pattern recognition; transportation and traffic control; cardiac studies; computer video graphics; modelling; numerical control; and seismic signal processing). Division of Electrical Engineering. Inquiries: Ottawa/t-tull (613) 993-2565.

NRC 16

Electrical engineering: computer technology is applied to the development of new electronic circuitry and devices, the transmission of electrical power and the uses of electromagnetic radiation. Division of Electrical Engineering. Inquiries: Ottawa/t-tull (613) 993-1384.

NRC 17

Herzberg Institute of Astrophysics: the astrophysical observatories of the NRC detect and analyse light and other emanations from the universe. Inquiries: Ottawa/t-tull (613) 996-1455 (solar) or 821-2480 (meteor); for other offices, see Part II under Lake Traverse (Ont), Penticton (BC), Saskatoon (Sask) or Victoria.

NRC 18

Industrial Materials Research Institute: the Council carries out research on industrial materials and techniques (for example, on corrosion, welding and joining, tribology and on forming techniques). Inquiries: Montréal (Qué) (514) 935-8513.

NRC 19

Mechanical engineering: the Council maintains engineering and testing facilities for research and development in transportation (marine, road, rail, pipeline and air transportation as well as air cushion technology); in standards and standardization in the engineering industries; in computer applications, control systems and human engineering, including medical instrumentation; and in manufacturing. The research in manufacturing covers a wide range of new industrial techniques and a number of energy-related developments. Division of Mechanical Engineering. Inquiries: Ottawa/t-tull (613) 993-2424 or other office, see Part II under Vancouver.

NRC 20

Medical and surgical technology: the Council conducts research in the technology of control systems and medical and surgical instrumentation. Division of Mechanical Engineering. Inquiries: Ottawa/t-tull (613) 993-9206.

NRC 21

National Aeronautical Establishment: the Establishment pursues research and development objectives in support of the aerospace industry. It is responsible for the maintenance and operation of the major aeronautical research facilities in Canada and conducts research in the areas of transportation lighting and visibility, motor vehicle safety and system dynamics. Aeronautical aerodynamics is also extended into wind energy and industrial aerodynamics. The theory of aircraft structural analysis by numerical methods is used for civil and marine structures, and trace vapour analysis techniques, developed to counter the threat of aircraft sabotage, are modified for pollution detection. National Aeronautical Establishment. General inquiries: Ottawa/t-tull (613) 993-2450; aircraft safety research: (613) 993-2469; motor vehicle safety research: (613) 993-2450.

NRC 22

Physics: the Council is responsible for research into selected areas of physics, for the maintenance of Canada's reference measurement standards (time, length, mass and temperature), for the calibration of measuring instruments for industry, hospitals, government and universities, for designs for industrial products, and for giving scientific advice to government and universities. Inquiries: Ottawa/t-tull (613) 993-1208.

National Research Council (Continued)**NRC 23**

Pollution studies: the Council publishes scientific criteria for environmental quality and provides information services on pollution research. Division of Biological Sciences. Inquiries: Ottawa/Hull (613) 996-6810.

NRC 24

Prairie Regional Laboratory: the Laboratory carries out research in the areas of chemotaxonomy, protein crop development, plant cell culturing and insect studies. Inquiries: Saskatoon (Sask) (306) 665-4191 or 665-5248.

NRC 25

Western Laboratory: research and development are carried out in the areas of tribology (friction, wear and lubrication), computer-aided manufacturing micro-processors and small-scale technologies. Inquiries: Vancouver (BC) (604) 732-4471.

Industrial research assistance (NRC 26-28)**NRC 26**

Industrial Research Assistance Program: financial assistance is provided by the Council for approved industrial research projects in Canada. The NRC will defray salaries of those researchers involved in approved projects. Inquiries: Ottawa/Hull (613) 993-0331.

NRC 27

Program for Industry/Laboratory Projects: this program promotes the application and exploitation of the technologies and expertise of the NRC laboratories in Canadian industry. Inquiries: Ottawa/Hull (613) 993-0695.

NRC 28

Technical Information Service (TIS): this industrial troubleshooting service provides assistance to industries in Canada, with a strong emphasis towards small- and medium-sized firms. TIS acts as a general engineering department for industries lacking sophisticated technical resources. A firm basis for technology transfer is provided by staff possessing long experience in this activity who maintain close liaison with client firms. In addition, the Science and Engineering Student Program (SESP) provides assistance to firms seeking solutions to short-term scientific, engineering and technological problems through the use of inplant university or technical college students, who are supervised by professional personnel. Inquiries: Ottawa/Hull (613) 993-1753; for other offices, see Part II under Winnipeg, Toronto (Don Mills), Kingston (Ont), London (Ont), Thorold (Ont), Montreal (Qué), Québec, St John's.

NSERC 1

The Natural Sciences and Engineering Research Council promotes and assists research in the natural sciences and engineering, excluding the health sciences, and advises the Minister of State for Science and Technology. Through its program of research scholarships and grants, NSERC supports excellence for the creation of new knowledge in the natural sciences and engineering. The program also promotes and supports the development of research in selected fields of regional and national importance and assists in the development and provision of highly qualified manpower. NSERC grants and scholarships are intended primarily for university researchers and students.

The Commission is the staffing arm of the government which handles a variety of matters including appeal decisions and staff training.

PSC 1

Careers: the PSC recruits, through annual competitions, qualified postsecondary graduates in demand disciplines, that is, in areas where such graduates may be in future demand. Staffing Branch. Inquiries: Ottawa/Hull (613) 996-5010 or any regional or district office, see Part II under cities listed above.

PSC 2

Career-oriented summer employment: the PSC administers the Career-Oriented Summer Employment Program through which departments hire postsecondary students to work on career-oriented projects during the summer months. Staffing Branch. Inquiries: Ottawa/Hull (613) 996-5010 or any regional or district office, see Part II under cities listed above.

PSC 3

Non career-oriented summer employment: the PSC establishes policies for summer replacement by secondary and postsecondary students for clerical, secretarial and general labour jobs in federal departments. Recruitment and referral are the responsibility of Canada Employment Centres for students (Employment and Immigration Canada). Staffing Branch. Inquiries: Ottawa/Hull (613) 996-5010 or any regional or district office, see Part II under cities listed above.

PSC 4

CO-OP employment for students: the PSC is responsible for hiring students on CO-OP work terms in government departments. Several postsecondary institutions in Canada offer co-operative education programs allowing students alternate terms of work and study. Staffing Branch. Inquiries: Ottawa/Hull (613) 996-5010 or any regional or district office, see Part II under cities listed above.

Public Service Commission (Continued)**PSC 5**

Careers in the Foreign Service: the PSC recruits university graduates through an annual competition for Foreign Service officer developmental positions in the Department of External Affairs. Staffing Branch. Inquiries: Ottawa/Hull (613) 996-5010 or any regional or district office, see Part II under cities listed above.

PSC 6

Career Assignment Program (CAP): through this program the PSC provides the federal public service with a continuous supply of staff with executive potential. Inquiries: Ottawa/Hull (613) 996-5010 or any regional or district office, see Part II under cities listed above.

PSC 7

Management category resourcing: the PSC is responsible for assisting and improving the management team of the public service through a comprehensive process of promotion, recruitment, selection, deployment and career counselling for executives and senior managers. Management Category Programs Branch. Inquiries: Ottawa/Hull (613) 996-5010 or any regional or district office, see Part II under cities listed above.

PSC 8

Interchange Canada and international program: career opportunities on an interchange basis between sectors of the Canadian community and the federal public service are offered to qualified candidates; the PSC nominates Canadians to international organizations. Inquiries: Ottawa/Hull (613) 996-5010 or any regional or district office, see Part II under cities listed above.

PSC 9

Native Employment Program: this program provides recruitment and referral services to native people seeking employment in the federal public service. Inquiries: Ottawa/Hull (613) 996-5010 or any regional or district office, see Part II under cities listed above.

PSC 10

Northern Careers Program: public service training and careers in northern Canada are available for native people resident in northern Canada. Inquiries: Ottawa/Hull (613) 996-5010 or any regional or district office, see Part II under cities listed above.

PSC 11

Career planning: staff development services (career planning, professional courses, counselling) are offered to public servants. Inquiries: for services in Ottawa/Hull, Staff Development Branch, (819) 997-3610; for services in the regions, Regional Operations Directorate, Ottawa/Hull (819) 997-6083 or any regional or district office, see Part II under cities listed above.

PSC 12

Services to handicapped people: this program provides recruitment and referral services to persons with disabilities seeking employment in the federal public service. Inquiries: Ottawa/Hull (613) 593-5511 or any regional office, see Part II under cities listed above.

PSC 13

Equal opportunities for women: the PSC ensures that the same opportunities for employment are available equally to both men and women. Office of Equal Opportunities for Women. Inquiries: Ottawa/Hull (613) 996-5010 or any regional or district office, see Part II under cities listed above.

PSC 14

Language training: language training in both official languages is available to English and French federal public servants throughout Canada. Language Training Branch. Inquiries: Ottawa/Hull (613) 996-5010 or any regional or district office, see Part II under cities listed above.

PSC 15

Public Service Employment Act/staffing procedures: the PSC answers inquiries from government employees and the public on the Public Service Employment Act, regulations, policies and directives. Staffing Authorities Centre. Inquiries: Ottawa/Hull (613) 996-5010 or any regional or district office, see Part II under cities listed above.

PSC 16

Political activities/civil servants: the PSC monitors the political activities of public servants. Inquiries: Ottawa/Hull (613) 593-4803.

PSC 17

Anti-discrimination: the PSC investigates complaints of discrimination on grounds of sex, race, national origin, colour, religion, age, marital status, physical disability and criminal record. Anti-Discrimination Directorate. Inquiries: Ottawa/Hull (613) 996-4200 or any regional or district office, see Part II under cities listed above.

Public Service Commission (Continued)**PSC 18**

Appeals on staffing: the PSC handles appeals by federal government public servants against breaches of the Public Service Employment Act and Regulations that may affect their career (promotion, demotion, release). Appeals Directorate. Inquiries: Ottawa/Hull (613) 996-4200 or any regional or district office, see Part II under cities listed above.

PSC 19

Appeals/redress information: the PSC receives and redirects inquiries from federal public servants seeking redress information. Appeals and Investigations Branch. Inquiries: Ottawa/Hull (613) 996-4200 or any regional or district office, see Part II under cities listed above.

PSC 20

Staffing investigations: the PSC investigates public service staffing anomalies for which there is no right of appeal. Investigation Directorate. Inquiries: Ottawa/Hull (613) 996-4200 or any regional or district office, see Part II under cities listed above.

PSC 21

Information Centre: the Centre provides general and policy information on all matters under the authority of the Public Service Commission, including employment posters and information. Inquiries: Ottawa/Hull (613) 996-5010.

The Board administers the Public Service Staff Relations Act, which governs collective bargaining, the grievance process and the adjudication procedure for the federal public service.

PSSRB 1

Certification: the Board's responsibilities include the determination of bargaining units, and the certification and decertification of bargaining agents.

PSSRB 2

Collective bargaining: the Board has regulatory powers related to collective bargaining, arbitration and mediation in the federal public service.

PSSRB 3

Grievances arising within the federal public service that have been referred for adjudication are processed and resolved by the Board.

PSSRB 4

Research on labour conditions: the Pay Research Bureau carries out research on rates of pay, employee earnings, conditions of employment and related practices prevailing both inside and outside the federal public service. Inquiries: Ottawa/Hull (613) 992-2800.

PSSRB 5

Designated employees: those federal public servants in essential services whose duties are necessary for the safety or security of the public are designated by the Board.

Public Works Canada (PWC)

Head Office
Sir Charles Tupper Building
Confederation Heights
Ottawa, Ontario
K1A 0M2

Regional Offices: Vancouver (BC), Edmonton,
Toronto (Willowdale), Ottawa, Montréal (Qué), Halifax.

Field Offices: Whitehorse, Yellowknife, Calgary (Alta),
Regina, Saskatoon (Sask), Churchill (Man), Winnipeg,
Thunder Bay (Ont), Sault Ste Marie (Ont), London (Ont),
Mirabel (Qué), Rimouski (Qué), Québec, Saint John (NB),
Goose Bay (Labrador), Charlottetown, St John's.

Information: Ottawa/Hull (613) 998-9560; regional and
field offices, see Part II under cities listed above.

The Department is responsible for the management and
direction of the public works of Canada.

PWC 1

Accommodation: the Department provides accommodation
(through construction and leasing) as requested by
federal departments and agencies, and ensures the
optimal use of this space. It provides all the necessary
building design and construction services, beginning
with the initial architectural concept and continuing
through all stages of planning and construction. Much of
this work is done through the use of consultant
architects and engineers operating under the direction
of departmental staff. Design standards are set to
ensure energy efficiency in new and existing structures,
accessibility for handicapped people, and the preser-
vation of heritage structures. The Department plans
and initiates improvements to federal assets; it also
operates, maintains and manages accommodation and
provides many property management services to federal
departments and agencies.

PWC 2

Federal real estate services: the Department is
responsible for the management and maintenance of
federal real property (land and any building or other
structure) and makes available a complete realty
service by acquiring, appraising, surveying and devel-
oping real property. It is also concerned with expro-
piation and the disposal of buildings and land. The
Department administers the Expropriation Act and
maintains the Central Real Property Inventory (a
computerized central record of the real property owned
or leased on behalf of federal departments and
agencies). The Department also administers the federal
legislation providing for grants in lieu of property taxes
on federal properties in municipalities across Canada.
Special organizations answering to the Minister of
Public Works Canada are responsible for the peripheral
lands at Mirabel, the Harbourfront in Toronto, the
Vieux Port de Montréal and the Vieux Port de Québec.

PWC 3

Government/National Master Specification (GMS/NMS):
the Department, in conjunction with five other federal
government departments and the private sector, is
responsible for maintaining and updating the master
specification system in both official languages. The
GMS/NMS is stored in a computer and contains most of
the typical specifications required for building, marine,
and heavy civil engineering projects. The GMS/NMS is
not a standard specification; it must be edited by the
designer or specifier to suit each individual project.
Construction Specifications Canada, a national
non-profit organization that is working under contract
with the federal government, is collecting private
sector comments on the Government Master Specifi-
cation (GMS). These comments are being progressively
incorporated into the master specification to produce a
National Master Specification (NMS) suitable for use by
both the government and the private sector.

PWC 4

Marine Program: the Department provides for the
construction, improvement, maintenance and operation
of PWC dry docks, locks and dams. It offers design and
construction services for the planning, establishment
and maintenance of marine facilities, including
harbours, wharves and breakwaters, which are required
for federal programs carried out by Environment
Canada, Transport Canada, Fisheries and Oceans, and
Revenue Canada Customs and Excise. Services for
dredging (which is required to maintain navigation
channels) are also offered. The Department also
provides for the development and support of industry,
and for water level control.

Public Works Canada (Continued)**PWC 5**

Solar programs: the Department is involved in helping to provide an initial market for the solar industry in Canada by purchasing and installing solar space and water heating systems for selected federal government and Crown corporation buildings. The prime objectives of the solar programs are: to acquire operating experience for consumer benefit, to establish a strong solar manufacturing base in Canada, to conserve conventional fuel sources, and to reduce federal energy costs. The Department's Solar Programs Office (SPO) manages funding for the procurement of solar equipment under the Purchase and Use of Solar Heating (PUSH) program, which seeks to build 6000 solar installations across Canada by 1985. Two other programs were previously managed by the SPO and are now successfully concluded. These were: the Program of Assistance to Solar Equipment Manufacturers (PASEM), which arranged shared-cost contracts with ten Canadian solar equipment manufacturers to help develop, produce and market solar systems (concluded April 1981); and the Low Energy Building Design Awards (LEBDA) program, under which a national competition for Canadian architects and engineers was organized to promote the design of commercial buildings that would utilize passive solar energy (concluded September 1980). The LEBDA program culminated in the publication of a book entitled *Winning Low Energy Building Designs*, which is available from the Publishing Centre, Department of Supply and Services, Ottawa/Hull (819) 994-3475.

PWC 6

Special services: the Department (through the Fire Commissioner of Canada) has responsibility for the fire protection of all federal government buildings and property, with the exception of National Defence property and aircraft (which come under the jurisdiction of Transport Canada). It has developed new applications of technologies to building operations and maintenance, including thermography, computer-aided design, nuclear shutters and air cooling.

PWC 7

Transportation: the Department is responsible for the construction and maintenance of roads and bridges that come under the exclusive jurisdiction of the federal government, the most notable being the Northwest Highway Systems. It is also responsible for the construction of the Trans-Canada Highway through national parks, as well as for the federal government's share of the responsibility for the administration, design, construction and maintenance of international and interprovincial bridges and tunnels. Another major element of the Department's transportation program is the supervision of road and bridge construction programmed by other government departments, such as the construction of national parks roads and development roads in the Yukon and Northwest Territories. The program also includes the administration and inspection of road projects for which responsibility is shared with other levels of government.

Customs and Excise is responsible for assessing and collecting duties and taxes on imported and domestically produced goods, as well as those on the transportation of persons by air. It controls the international movement of persons and goods, and provides Canadian industry with the protection to which it is entitled under the customs laws. The Customs Act, the Customs Tariff, the Anti-Dumping Act, the Excise Act and the Excise Tax Act are administered by Customs and Excise, as are the statutes of other government departments and agencies insofar as they relate to the international movement of persons and goods. Customs and Excise also provides the information and services necessary to develop a full understanding of and willingness to comply with the requirements of customs and excise laws and regulations.

RCCE 1

Anti-dumping: the Department investigates complaints of material injury to Canadian producers arising from the alleged dumping of imports into Canada. It enforces the findings of the Anti-Dumping Tribunal and re-appraises imports into Canada when importers file appeals against the assessment of an anti-dumping duty. Inquiries: Ottawa/Hull (613) 995-4726 or any regional office, see Part II under cities listed above.

Customs (RCCE 2-28)**RCCE 2**

Bonded carriers: the Department enforces customs cargo control regulations relating to the control of the importation and exportation of international cargo in bonded carriers. Inquiries: any regional office, see Part II under cities listed above or nearest port of entry, see Part II.

Revenue Canada Customs and Excise (Continued)**RCCE 3**

Bonded warehouses: the Department enforces the regulations and procedures governing bonded warehouses as well as the regulations relating to ships' stores and the disposal of unclaimed goods at customs. Inquiries: any regional office, see Part II under cities listed above or nearest port of entry, see Part II.

RCCE 4

Bonding/customs house brokers: the Department is responsible for the examination, licensing and bonding of customs house brokers. Inquiries: any regional office, see Part II under cities listed above or nearest port of entry, see Part II.

RCCE 5

Customs automated systems: the Department maintains an automated cargo inventory, entry processing and revenue collecting system (CEPACS project). Inquiries: Ottawa/Hull (613) 992-6016 or Montréal (Qué) and Toronto regional offices, see Part II.

Statistics Canada has the mandate, under the Statistics Act, to "collect, compile, analyze, abstract and publish statistical information relating to the commercial, industrial, financial, social, economic and general activities and condition of the people." The Department also collaborates with other federal and provincial departments in regard to national statistics. Consultation and inquiry services are available to the public.

Statistics (SC 1-45)**SC 1**

Agriculture: statistics are available on crops and livestock, farm numbers, farm incomes and other financial information, as well as on farm energy use and the structure and production base of agriculture.

SC 2

Air transport: statistics are available on commercial air services, including finances, operations, airport traffic, and passenger origins and destinations.

SC 3

Balance of payments: statistics are available on current and capital account transactions between Canada and other countries, and on year-end claims and liabilities to non-residents.

SC 4

Business: statistics on finances, sales and other important aspects of the corporate business sector of the Canadian economy are available.

SC 5

Census of Agriculture: every five years, Statistics Canada conducts a survey of all Canadian farms which yields information on important aspects of the structure of farming in Canada, including land use and inventories of crops, livestock, buildings and machinery.

SC 6

Census of Population and Housing: in years ending with a one or a six, Statistics Canada conducts a survey of all Canadians which provides basic demographic measures as well as information on language, education, labour force activity, and characteristics of dwellings and households. In years ending with a one, additional information is made available on ethnicity, immigration, occupations, income and shelter expenditures. All data are available in printed, microfiche and machine-readable formats for diverse geographical census areas.

SC 7

Communications: statistics concerning the finances and operations of radio and television broadcasting stations, cable television services and telecommunications carriers, including telephone companies, are available.

SC 8

Construction: statistics are available on housing starts and building permits, the construction industry, private and public investment in Canada, and on stocks of fixed assets and their degree of industrial use.

SC 9

Income and expenditure/consumer: Statistics Canada provides statistics on income, housing and other indicators of the economic well-being of Canadian individuals and families, and on their expenditures.

SC 10

Consumer Price Index: CPI (sometimes called the cost-of-living index) is based on a regular record of the prices of a "basket" of goods and services typically purchased by consumers. This "basket" is updated on a periodic basis to reflect changes in purchasing patterns over time.

SC 11

Culture: statistics are available on book publishing, news media, museums, artists and other aspects of Canadian culture life.

Statistics Canada (Continued)**SC 12**

Demography: Statistics Canada produces annual estimates and projections of population by age, sex and marital status, and of households and families, including statistics on births, deaths, marriages and divorces.

SC 13

Economic models: Statistics Canada provides access to structural economic models of the Canadian economy, including national input-output models and national price models, and the special tabulations of data associated with them.

SC 14

Education: statistics on enrolment, teaching staff and finance for all levels of education are available.

SC 15

Employment: data derived from individuals and organizations describing industries, occupations, hours of work, earnings, benefit costs and other topics are available.

SC 16

Energy: statistics are maintained on the supply and demand for all types of fuels.

SC 17

External trade: statistics on the nature, quantity and value of domestic exports and imports are available by country of destination or origin.

SC 18

Financial flows: statistics are kept on the financial wealth of Canada, and the channels through which borrowing and lending take place.

SC 19

Financial statistics: financial data and performance ratios for industrial corporations, financial institutions, certain unincorporated enterprises and government enterprises are available.

SC 20

Foreign ownership and control: statistics and analyses are produced on the extent and influence of foreign ownership and control of Canadian corporations, and on inter-corporate ownership, from surveys under the Corporations and Labour Unions Returns Act (CALURA) and other surveys.

SC 21

Gross National Product (GNP): an estimate of the total value of production and consumption of goods and services by Canadian residents, at market prices and inflation-adjusted dollars, is published quarterly and annually.

SC 22

Governments: internationally comparable statistics on finance and employment are available.

SC 23

Health: the Health Division keeps statistics on beds, services, personnel and finances of hospitals, mental institutions, nursing homes and homes for the aged; the characteristics of patients in hospitals and mental institutions; registered nurses; and on births, deaths, marriages and divorces. The Division also houses the Canadian Nosology Reference Centre for classifications associated with health, such as diagnoses, accidents and medical procedures.

SC 24

A help-wanted index is published quarterly, that is based on the volume of help-wanted ads in major daily newspapers. The index estimates changes in the number of job opportunities for Canada and its major regions.

SC 25

Housing: statistics are maintained on such characteristics as type of housing, rooms per dwelling, values, rents, fuels, period of construction, household facilities, as well as on construction starts and completions.

SC 26

Industrial production index: this index measures real monthly output for each manufacturing industry, the mining and oil industries, and the electric power, gas, and water utilities.

SC 27

Input-output statistics are maintained on the inter-industry flows of goods and services.

SC 28

Justice: statistics are available on law enforcement, criminal and civil courts, juveniles, legal aid and correctional services.

SC 29

Labour force: statistics are available on the employment, unemployment and characteristics of persons in and outside the labour force, and on the administration of the Unemployment Insurance Act.

Statistics Canada (Continued)**SC 30**

Leading indicators: the Department maintains statistics on a group of economic indicators, such as automobile sales, which often lead cyclical movements in the economy and foreshadow future economic events. Statistics Canada's composite leading index weighs and summarizes these in a single monthly indicator.

SC 31

Labour unions: Statistics Canada maintains data on the activities of labour unions in Canada and their association with international unions reported under the Corporations and Labour Unions Returns Act (CALURA).

SC 32

Manufacturing industries: statistics are available on inventories, shipments, orders, capacity, utilization, materials used and other characteristics, for every kind of manufacturing.

SC 33

Maps: Statistics Canada maintains maps depicting the boundaries of the various statistical areas associated with the Census of Population and Housing as well as maps showing other standard geographical areas.

SC 34

Motor transport: statistics are available on for-hire and private truck transport and intercity bus and urban transit, including statistics on finances, operations and traffic for most survey areas.

SC 35

Motor vehicles: statistics are available on registration by provincial and territorial governments and on motor fuel sales.

SC 36

Information: Ottawa/Hull (613) 593-6342 or any Canada
Service Bureau, see below.

The Task Force on Service to the Public is working to
give Canadians better access to federal programs and
services. Its activities include helping federal govern-
ment departments improve the quality of service they
provide to the public.

TFSP 1

Qualiserv: this program helps departments improve the
quality of service they provide to the public through a
process that involves employees at all levels. Qualiserv
staff also helps departments identify and correct
specific service problems in their organization in such
areas as telephone answering skills, physical layout for
service transactions, databanks, and so on. Qualiserv's
aim is to foster a management philosophy and attitudes
that centre on the public, so that quality of service
becomes a continuing concern for everyone in the
organization.

TFSP 2

Telephone access to government programs is being
improved through the blue pages government section in
public telephone directories. This distinctive section
groups phone numbers for all levels of government -
federal, provincial and municipal. Where blue pages do
not exist, government listings are identified by white
pages with black borders. Toll-free service is being
introduced for the most frequently called federal
programs. Central telephone referral services have
also been established in several provinces, enabling
people to dial one central number for help in finding the
federal department that can assist them, see following
list of telephone referral services:

TFSP 3

Cantel, the Government of Canada Telidon Information
Bank, was developed by the Task Force to provide
electronic access to information about federal pro-
grams and services. Cantel's 55 000 pages of infor-
mation are available in both official languages through
Telidon, the computer communication system designed
by the Department of Communications. Telidon
terminals are found in Canada Service Bureaux across
Canada and in 25 External Affairs posts around the
world. Cantel is also accessible on Telidon terminals in
selected public libraries and shopping malls, as well as
through a variety of government and industry Telidon
trials. It includes information such as descriptions with
graphics on federal services to the public, job openings
in Canada, regional weather and the addresses of all
federal government offices. Alpha-numeric keypads
attached to the terminals enable users to order from a
selected list of government publications and to do
key-word searches.

TFSP 4

Index to Federal Programs and Services: the *Index*
is an annually updated reference source containing
descriptions of more than 1200 federal programs and
services. It also lists the addresses and phone numbers
of local, district and regional federal government
offices. The public may find the *Index* in libraries and
post offices across Canada, and on Telidon as part of
Cantel.

Task Force on Service to the Public (Continued)**TFSP 5**

Canada Service Bureaux: the Task Force operates 15 service bureaux in shopping malls and downtown areas across Canada, providing assistance to people who prefer to deal with government in person. The service bureaux staff answer general questions and put people with specific inquiries in direct contact with the person in government who can help them. Each service bureau is equipped with a Telidon terminal through which the public has access to Cantel, see TFSP 3. Many of the service bureaux are open beyond normal business hours and on weekends. Eight mobile units regularly take the same service to communities in outlying areas. In Winnipeg, at the Canada Public Help Centre, a Canada Service Bureau works side-by-side with Employment and Immigration Advisory Services, which assist people in resolving employment, unemployment insurance and immigration problems.

Tax Review Board (TRB)

381 Kent Street
Ottawa, Ontario
K1A 0M1

Information: Ottawa/Hull (613) 995-9045.

TRB 1

The Tax Review Board is an independent federal judicial body established in 1971 to hear and dispose of appeals on matters arising under the Income Tax Act and the Canada Pension Plan. (The jurisdiction of the Board does not include complaints about the payment of assessments or refunds.) Taxpayers must have first served notice of objection to the Minister of National Revenue and have received either a confirmation of their assessment or a reassessment before filing a notice of appeal with the Tax Review Board. Hearings are held in major centres throughout the country by representatives of the Board.

Treasury Board of Canada (TB)

Place Bell Canada
160 Elgin Street
Ottawa, Ontario
K1A 0R5

Information: Ottawa/Hull (613) 995-6141.

The Treasury Board of Canada is a committee of six members of the Queen's Privy Council, including the President of the Treasury Board and the Minister of Finance. The Board advises Cabinet on the selection of programs and projects that will achieve the government's objectives in the most effective manner in accordance with its priorities, and promotes the efficient use of the manpower and material resources needed by departments and agencies to carry out their programs and projects.

TB 1

The Treasury Board Secretariat: as the operational arm of the Board, the Secretariat examines all proposed spending programs and keeps them under review; proposes personnel management policy; and negotiates, as the employer, collective agreements with public service bargaining agents.

TB 2

Official languages: the Secretariat oversees the implementation of the Official Languages Program in the federal public service, which includes producing general guidelines and criteria to provide direction to departments and agencies; auditing and evaluating departmental official languages activities; and monitoring the progress of the public service towards the achievement of language reform.

TB 3

Directory of bilingual offices: the Secretariat publishes a list of federal department and agency offices in Canada that have a full-time capacity to serve the public in both official languages. Inquiries: Ottawa/Hull (613) 593-6921 ext 244.

TB 4

Federal Identity Program (FIP): through this program, the Secretariat aims to identify federal activities in a consistent manner; to improve the methods of graphics handling and design in the area of official languages, consistent with the Official Languages Act; and to reduce costs through standardization of the program's application.

TB 5

The Comptroller General of Canada: the Comptroller General heads the second organization serving the Treasury Board and is responsible for the quality and integrity of the financial administration policies and practices in use throughout the federal public service.

Part II
Federal Government
Offices Throughout Canada

Explanatory Note

Part II of the *Index to Federal Programs and Services 1983* contains a listing of all federal government offices in Canada to which the public has direct access. The list is broken down into the twelve provincial and territorial sections of the country, arranged alphabetically from Alberta to Yukon Territory. The office addresses are listed alphabetically by department within each town, also arranged alphabetically. The addresses include, wherever possible, the department's name, branch or division name, street address, postal address, postal code and telephone number.

On page 244 there is an alphabetical listing of departments, with the cities in which their offices are found. For example, to find the offices for Consumer and Corporate Affairs, check the list under that department's name for the town nearest you. Then turn to the town in the relevant provincial section for the full address.

Following the guidelines laid down by the Canadian Permanent Committee on Geographical Names, the alphabetical arrangement of town and city names is by letter: for example, Cutbank comes before Cut Knife; Lac-Mégantic before La Malaie. Towns beginning with Saint, St, Sainte, Ste are all interfiled alphabetically by letter, with the contractions being treated as if they were spelled out; for example, St Andrews precedes Saint John and St Stephen; Sainte-Thérèse precedes Saint-Eustache.

Part II of the *Index* also includes a list, by province and town, of the authorized bookstore agents of Government of Canada publications, see page 467.
